EDITOR'S ECHOES

This issue will have many tokens for the auction to benefit Chriss Christiansen, who was so active on the early years of METCA with the Monitor Program. The highlight of the auction will be some rare Alaskan currency. All winning bids will be forwarded to Chriss to assist in his leg prosthesis. The FEB/MAR issue will contain the remainder of tokens that members have donated. Thanks to all of you who have donated tokens, and thanks to those of you who will make bids on the lots.

ADVERTISING RATES: Full Page Ads - \$12.00; \$10.00 if typed. Half Page Ads - \$7.50; \$6.00 if typed. QTR. Page Ads - \$4.00. Classified ads are free to each member each issue. Make checks payable to METCA, 752 North 74th, Seattle WA 98103.

At this writing I am contemplating a double issue of FEB/MAR of approx. 40 pages. This will afford me the opportunity of catching up closer to the first of the month and allow me to include some of the fine articles that have been submitted in recent months i.e., Alabama town listing; Additional listing of Missouri Encased Cents; etc. With this in mind please submit your classified ads, mail bid sales, etc within two weeks after you receive the January issue of Trade Token Topics.

METCA dues of \$8.50 are being accepted. Have you renewed for 1980?

If you wish to drop Bob Alexander a short line, you can reach him at P.O. Box 11555, Parkwater Station, Spokane, WA 99211. He enjoys company, letters and phone calls - if they aren't too lengthy. We all wish Bob a speedy recovery.

S.L. Steinberg, Box #512, Malden, MA 02148 has 2 exonumia lists available - #69 with 70 items and #69A with 63. Several C/S appear in the lists. A nice selection - some at fixed prices, others on a mail bid basis.

The Employees' Coin & Stamp Show is Jan 26 -27 in Seattle.

The Grays Harbor Coin Club is hosting its 19th annual Coin Show Feb 16 - 17 at the V.F.W. No. 224 Club - 105 E. Heron Street, Aberdeen, WA 98520.

John Cheramy Coins, P.O. Box 5214, Station "B" Victoria, B.C. Canada V8R 6N4 has a 6 page listing of Canadian tokens and medals available.

A Token & Medal Show/Swap Meet will be held in Concordia, KS National Guard Armory, March 15 - 16, 1980 (held in conjunction with the Date Nail Collectors Ass'n. show. 8' tables - one day \$8.00; two days \$12.00. Sat. 8 AM to 9 PM Sun 8 AM - 3 PM. Reservations to Kent D. Johnson Rice, KS 66965 (913) 243 - 3151. Bring your trading stock.

CATC dues of \$2.00 (Calif. Assoc. of Tokens Collectors) are being accepted by Elaine Willahan, 516 W. 99th St., Los Angeles, CA 90044.

IKO-TAMS Bulletin Jan-Mar 1980 - President Richard Seipelt will relinquish his duties to new president-elect Joe Emmons at the regular meeting to be held March 23, 1980 at the Holiday Inn at Fairfield, Ohio.

A nice article on the new personal token of Joseph Studebaker, Jr. which was issued in memory of Max Schwartz. (AVA #1226C).

The article appears in the Jan-Mar IKO-TAMS Bulletin.

MINI AUCTION OF SCARCE ALASKAN TOKENS

1. Cape Edwards
Deep Sea Salmon Co. - 25¢ Alum. Of the 5-piece set known, this demonination seems to turn up most often. Possibly a dozen pieces known. This one has a couple of scratches on the face. Overall V.F.
2. Cordova
Take me to Harry & Charlie Cordova House. 5¢ Brass V.F. R-6
3. Ketchikan
The Lotus Buffett 6 1/4¢ Brass R-6
4. Port Alexander
Knut Dalsbo 5¢ & 25¢. Cardboard 38 mm. The 5¢ is light green, the 25¢ red. A second type of 25¢ is yellow and has the initials K.D. The information I have on this is that K.D. stands for Kaylor Dahl, a well known fish buyer. Possibly 20 sets exist.
5. Quinhagak
Pauline Jean - 25¢, 50¢, \$1.00 and \$5.00. Complete set of 4 alum. tokens. A nice looking set. The 25¢, 50¢ and \$1.00 will grade V.F. The \$5.00 X.F. There are probably in the neighborhood of 15 sets in the hands of collectors now. The exact number of these tokens in existence is unknown to me.
6. Seward
Leo Douglas - Pioneer Club 12 1/2¢ Alum. Type II variety. R-7, possibly R-6. V.F.
7. Valdez
Pinzon 25¢ dark blue cardboard. Some of the blue paper has flaked from the cardboard. Still appears to be a tough token. R-6.

Mail bids to: JERRY ZARA BOX 248, BRICK, NJ 08723

I am also interested in purchasing all jail or prison related items that you may have; tokens, medals, weapons, wooden nickels, art work, postcards, anything related at all.

I will be working towards my completion of the catalog which has been in the making for sometime now, hopefully in this coming year. I thank all those that have been of some assistance, and still welcome any information that you may feel will be helpful in publishing an updated catalog of prison material.

Mail all correspondence to the above address...thank you.

88. Statehood Commemorative - Alaska Seward on obverse; flag on reverse. listed in "Alaska's Coinage through the years D-7-6 and Rubles to statehood Misc-2. it's bullion value is about its retail value, the medal is listed as "Silver" in both publications ('pups') cited, however, the medals were originally sold in a blue, 2"x2" envelope that contained the medal serial number, and the term "Sterling Silver .925" (and no, a strickly "Silver (.999)" was not issued). In that the medals were not struck with the serial number and metal content, that once the medals were placed in a 2"x2" holder, etc., the original blue envelope was "normally" discarded and the above info with it.

Be the first person in your block; town or city; State; and the Whole World to own a set of extremely rare Alaska currency!!!!

Valdez Igloo/Pioneers of Alaska//Currency, 5 (F-I-V-E) Dollars; 10 (T-E-N) Dollars; 20 (TWENTY) Dollars; 50 (F-I-F-T-Y) Dollars; and 100 (1-0-0) Dollars notes!

Total of 5 notes, the words "(F-I-V-E)", "(T-E-N)", etc., is the spelling of that denomination on that specific note.

The notes are approximately 3½ inches high, by 7½ inches wide, the reverse (back) of all notes is blank.

The notes were reportedly used from 1914 into the 1920's, and were used during functions and celebrations of the Valdez Igloo, Pioneers of Alaska (these notes were not produced/used for a limited or specific event (i.e. "Gold Rush Days of '98").

Four notes of this type are known to be in the hands of collectors (2 collectors each have a "10 (T-E-N) Dollars" note, and a collector has a "20 (TWENTY) Dollars" note and a "100 (1-0-0) Dollars" note).

The following items of historic interest were found with the set of notes, copies of both documents are included with the set of 5 notes: The first is a cancelled check, dated Sept 10, 1914, counter-signed by "C.M. Day" as President of Igloo No. Seven (Valdez "Chapter"). C.M. Day is partially remembered as the issuer of the C.M. Day tokens of Valdez, Alaska and the founder of the short-lived community of "Dayville, Alaska".

The last item is a carbon copy of a letter entitled "Key to pass-word. For future reference" and is sub-titled "The pass-word for 1918 is --". This letter contains a basic "encode/decode", numeric to alphabetical letter system for the "pass-word" to be able to enter the Valdez Igloo, Pioneers of Alaska, social functions, membership meetings, etc.

These notes were donated by a non-member of METCA, through a member of METCA. Both desire to remain anonymous, however, due to the scarcity of these notes the member is submitting a bid of \$200.00 himself/herself.

THIS ITEM IS THE LAST ITEM FOR THE CHRISS CHRISTIANSEN AUCTION THIS MONTH.

The above tokens are available in trade for rare Minnesota towns, multiples of Minn. tokens I can use, Minn. transportation tokens that I need, Minn. medals that I need, higher catalog pre-1910 transportation tokens from any state, or better Civil War Store Cards.

Obscene cash offers will be considered.

I handle thousands of tokens each year--common to rare. If you are a serious collector, please send me your specific town list or want list of any type of token. Unlike some dealers, I do not "file & forget" your want list.

I am buying all transportation tokens that catalog \$1 and up--let me know what you have for sale. I will purchase complete collections.

THE GREAT MAJORITY OF THESE LOCATIONS ISSUED SCRIP FOR COAL OR THEIR BY-PRODUCTS INCLUDING IRON & STEEL. ALSO ABOUT THE SAME AMOUNT OF THESE LOCATIONS ISSUED SCRIP FOR THE LUMBER BUSINESS. THERE ARE A FEW ISSUES FROM SALOONS, DRUG STORES, DAIRIES, PARKING, TRANSPORTATION & MERCANTILE STORES. THE REST WERE ISSUED BY THE GENERAL MERCHANTS.

PLEASE KEEP IN MIND THAT IF A LOCATION IS NOT LISTED IT DOES NOT MEAN IT IS A RARE LOCATION AS THIS LIST IS LESS THAN A YEAR OLD & I'VE ONLY BEEN COLLECTING ALABAMA MERCHANT MONEY FOR ABOUT A YEAR OR TWO. ALSO TWO OF THE MAIN COLLECTOR OF ALABAMA HAVE NOT ADDED THEIR LOCATIONS TO THIS LIST.

WOULD APPRECIATE ANY ADDITIONS IN THE WAY OF LISTING, RUBBINGS OR TRADE OFFERS OF ALABAMA MATERIALS. ----MANY THANKS----

JAMES M. MILLARD 238 HARDIN DR. SELMA, ALA 36701

Jim Millard, who was one of the hardest workers in Oregon exonomic circles, is at it again - this time in Alabama circles. Jim has (with the cooperation of other AL collectors) been kind enough to share a tentative listing of Ala locations that used tokens. Jim would appreciated the cooperation of the membership in adding to this listing. Ed.

R. R. "TIP" TIPPY 102½ MEADOW ROAD OAK RIDGE, TENNESSEE 37830

LISTED BELOW ARE A VARIETY OF LUMBER, COAL, TEXTILE MILL, AND MERCHANT TOKENS. TO THE BEST OF MY KNOWLEDGE, THIS IS THE FIRST TIME SOME FEW OF THESE HAVE BEEN AVAILABLE. THIS IS PARTICULARLY TRUE IN RELATION TO SOME ILLINOIS PLUS CERTAIN LUMBER TOKENS. ON THE OTHERHAND, MANY OF THE COAL TOKENS ARE CONSIDERED COMMON, WITH A SCATTERING OF SOME "GOODIES" INCLUDING SOME \$3.00 PIECES. I HAVE BEEN COLLECTING COAL SCRIP TOKENS FOR THE PAST 20 YEARS. ONLY RECENTLY HAVE I STARTED TO SERIOUSLY COLLECT LUMBER.

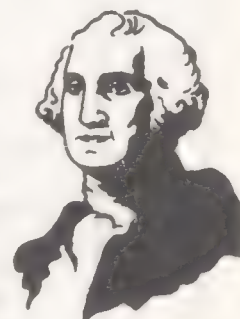

ALL ITEMS LISTED ARE FOR SALE OR TRADE FOR: LUMBER, COAL, MILL, ANY TYPE OF MINING, AND ELKS TOKENS. IN ALL INSTANCES TRADES WILL HAVE PRIORITY. IN ADDITION, SHOULD ANY COLLECTOR LIKE TO HAVE A REPRESENTATIVE "MINT" COAL COLLECTION, I WILL TRADE SAME FOR ITEMS IN THE CATEGORIES LISTED ABOVE. THIS IS MY FIRST EFFORT IN THIS TYPE OF VENTURE. HOPEFULLY, IT WILL MUTUALLY HELP US BOTH.

MORE NEVADA MAVERICKS IDENTIFIED

by Len Hoskins

More Nevada maverick tokens have recently been attributed to Nevada towns. These are in addition to those reported in the March 1979, issue of Trade Token Topics and those included in the Nevada Maverick List, previously distributed by this writer.

The first group has been identified with the aid of Bradstreet's Directory, September, 1914. All are listed:

H. Marcotte Liq. Co.	- - - - -	Ely, Nevada
Talbott Bar	- - - - -	Ely, Nevada
A.P. Nelson	- - - - -	Gardnerville, Nevada
Chris Jespersen	- - - - -	Gardnerville, Nevada
Rahbeck's Saloon	- - - - -	Gardnerville, Nevada
Fred St. Clair	- - - - -	Golconda, Nevada
C.F. Dangburg	- - - - -	Minden, Nevada

The C.F. Dangburg token is a welcome addition for Nevada collectors since it is a positive Minden token. To date, many collectors have been unable to obtain any token from this small Douglas County community.

Two other mavericks recently identified are:

Bacon's Smoke House	- - - - -	Reno, Nevada
Stock Exchange Bar	- - - - -	Ely, Nevada

Washoe County cataloguer, John Schilling, has identified the first. The Ely maverick was dug at Ely with STOCK EXCHANGE BAR tokens with both city and state embossed.

Two more maverick tokens listed here are from White Pine County Nevada, but should perhaps be considered transportation tokens rather than trade tokens.

On the obverse they are embossed:

ROBINSON CANON AUTO SERVICE (a brass token) and
RED STAR STAGE LINE (an aluminum token)

Robinson Canyon is the route of U.S. Highway 50 west from Ely, Nevada toward Ruth, Nevada. The reverses on the two tokens are identical. Both say, "GOOD FOR ONE RIDE BETWEEN RUTH AND ELY."

Your writer is anxious to obtain the Chris Jespersen, Rahbeck Saloon and Red Star Stage Line tokens and would pay cash or trade other tokens for them.

Reader response to my request for more listings has been greater than I expected. However, I still have room for more! Please send only listings that have two categories of information on them, ie, owner's name, business name, street address, town name, etc. If the listing does not have two types of information, I will not include it in this column. Also, if rubbings are included, I will try to use them to illustrate this column.

Rubbings should be clear so that all the lettering stands out. The blue lead in teachers' marking pencils seems to work well.

Send identifications and new listings to:

Food Stamp Change Newsletter?

Collectors who may be interested in a newsletter or corresponding club on Food Stamp Change Tokens and Paper Scrip should send a stamped, self-addressed envelope and a 25-word ad (free) to Jerry Schimmel, P.O. Box 40888, San Francisco, CA 94140. In late March or early April he will mail out a free trial newsletter and a sample token to those who write. Collectors should also feel free to send questions, information, clippings, mavericks to be identified (food stamp only, please!), or interesting samples to be Xeroxed. The newsletter is projected to be published at least three times a year. Collectors should not send any money at the present time until the level of collector interest is determined.

Food Stamp Change is presently prohibited unless it is given in U.S. Currency according to a regulation made in late 1978. Tokens and scrip have been issued in all states and territories, including the Commonwealth of Puerto Rico where a wide range of tokens have been used. The collecting of Food Stamps is prohibited under Federal Law, but the collecting of tokens and scrip is not. Food Stamp items were issued primarily by small merchants in local communities, although large retail food chains used items in stores serving a number of geographical areas. Tokens/were given for change under \$1.00 and came in denominations of 1¢, 5¢, 10¢, 25¢, and 50¢. Metal, plastic, and paper were the most common materials used.

THE 83 D RR SOU TOKENS

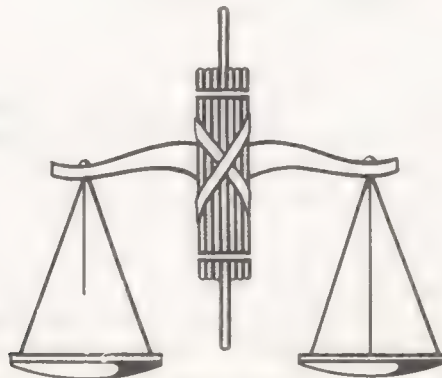

ALASKA

Ronald J. Benice
25 Stewart Place
Mount Kisco NY 10549

Tokens issued by the 83d RR SOU NCO Association have been appearing in price lists and auctions as Alaskan since the early 1970's. There are 5¢ and 10¢ brass tokens and a 25¢ aluminum token. They are never attributed to a specific place in Alaska nor are the initials in the unit name ever spelled out. Railroad and Rest and Recreation are the most common starting attempts with the RR part of the name. One version guaranteed the Alaska attribution as coming from a military officer who spent years tracing it.

The tokens are not Alaskan.

According to records in the Army Center for Military History in Washington, D.C., the 83d Radio Research Special Operations Unit was an Army Security Agency unit that existed in Thailand from May 15, 1962 to June 30, 1971. The Historian for the U.S. Army Intelligence and Security Command has informed me that "the 83d RR SOU spent its entire organizational existence in Southeast Asia and at no time did it have any connection with the Alaskan area or a unit in Alaska."

WHERE'S LOTUS ISLE?

Edward Saunders

This is the same question that came to my mind when I found a nice cardboard chit from there one Sunday afternoon at an antique show. The man at the show gave me another person's name and said he could give me more information about Lotus Isle.

Yes, Lotus Isle, so called, is short for Lotus Island, it was an early day amusement park; which had a sun bathing area along the Columbia River. This was located on the Oregon side of the river on what is known as Hayden Island. Another park was also located on this island, further to the west, and this was the better known of the two. Most all of us have heard of Jantzen Beach Amusement Park.

Lotus Isle had already come and gone when Jantzen Beach came on the scene. Lotus Isle was on the east end of Hayden Island and was separated by a slough from the more popular area, which was to become known as Jantzen Beach. The shoppingcenter there still bears the name, though the park has been gone for 10 years or so. Lotus was only there for a very short time, two or three years, and was there, according to Mr. Muller, circa 1916 to 1917 (or just after WWI).

Lotus Island was reached by crossing the slough at a place called "Willbridge". This was located a little northeast of the Safeway Store just this side of the Portland-Vancouver Toll Bridge (no longer a toll bridge). A bridge crossed over the slough and you went down the river a ways to the location of Lotus Isle. This was a mile or two from the Jantzen Beach location.

The toll bridge was paid off in 1968 and only a short time the park where Jantzen Beach was, was sold, because it was not going to be re-opened after the death of the owner. It is today a very nice shopping mall. Jantzen Beach was there 40 years or more as an amusement park and was quite popular during its years of fun and laughter.

Today, Hayden Island, has several nice resort type motels. The newest being the Red Lion Motor Lodge, located in the area of the lesser known Lotus Island (on the east side of I-5). Jantzen Beach was on the west side of I-5.

The whole area has always been popular for recreational facilities. It is near the cove where many dock their boats and find easy access to the Columbia River. There are quite a few services offered in the area today - restaurants, gas stations, movies, a bowling alley, ice rinks, just to name a few.

Tokens have been known from the area for the best of 50 years. The Lotus Isle chit, being good for a 5¢ dance, is probably the first. There are 4 or 5 chits from Jantzen Beach. Also there exists a more modern wooden piece from a tavern and the Toll

Bridge crossing token, which sold for 20¢ (discontinued in the late 1960's).

The amusement parks are gone, but the area still has its appeal to those of a mind towards amusement. Who knows why one area seems to always have its grasp on the events of the area, while others seem to fade and die. Anyone who knows anything about Portland can tell you where to find Jantzen Beach, however, it took me a bit of hunting to find any one who could even remember Lotus Isle. Both of these places are communities, and I am placing Lotus Isle as a new location in my Oregon collection. Yes, there was a Lotus Island, Oregon, gone but not completely forgotten. There is still the little chit to tell some of the story to those that are lucky enough to find one.

OBV 26th anniversary/IATSE (on 5 lobes emanating from center) /1937/Atlanta,Ga. ("225" in center obv. shield)

REV Motion picture machine/operators/Social/□/security

Sent in by R.W.Colbert, this piece is similar to the one in the OCT/NOV column and R.W. provides some interesting data about the International Alliance (of) Theatrical Stage Employees. The number 225 center obv. indicates the number of the IATSE local in Atlanta, so we know the IATSE is still operating! Additionally, Chapters are known in Decatur,Ga. and another in Atlanta.

This 26th anniversary piece dated 1937 shows the founding date to be 1911, very early in the motion picture industry! The Theatrical Stage Employees union also covered "motion picture machine operators" as indicated on the rev. of this token. Most interesting is the rev. rectangle evidently to be used for impression of the token owner's Social Security number! Now that we know more about these tokens, perhaps METCA members could write Dave Bowers with any information they might have regarding Theatre tokens and related material. Someday soon we may well have another interesting exnumia catalogue!

R.E. Hershey sent in rubbings of not one but a pair of unusual tokens. Ship tokens are in demand and two dated similar tokens must be considered desirable. Of course, these pieces ask more questions than they answer, which makes them interesting!

These tokens should bring letters from METCA readers. Perhaps this ship was one of those many built by the Japanese to help modernize their Navy at the time, as most Japanese names end in vowels. Always mindful of the Chinese and Russians since the turn of the century Sino - Japanese wars, Japan eagerly sought to put together a fleet that would be second to none. I speculate on this matter, however!

Incongruous to me is the use of peace symbols associated with an instrument of war, but then equating larger arsenals, fleets, etc. with their supposed value as deterrents to war is a necessary (though inane) train of thought nowadays!

This columnist always enjoys letters from METCA readers and would hope to see many more at the Post Office similar to one sent by Del Ford of Del City, Okla. Del has described how he obtained an unusual piece of exnumia and thought that his letter might be boring - quite the contrary, Del, I'm sure readers will find the story interesting as I did! In dealing with counterstamped coins many of us overlook an interesting sideline to seeking the elusive name, occupation, and location pieces and this is the "OBJECT" counterstamps! All these stamps have a meaning behind them and could prove just as fascinating as the usual stamp. Surely objects on coins would prove much harder to research, but this makes it all the more rewarding! Now to quote from Del's letter.

"In 1963 or 1964 an elderly Indian came to me with a genuine Oklahoma Territory token & an old English shilling on a string necklace. She mentioned her Husband had been an Asst. U.S. Marshall in Western Oklahoma before passing on. At a later date she came to me with a 1921 P Morgan dollar bearing the registered Trademark of the Colt Firearms Co. stamped on Liberty's cheek. Her husband had obtained this piece (she thought in Hobart) as a premium when he purchased his last Colt pistol".

Del mentions resisting a few offers from both coin and gun collectors because of his fondness for his unusual silver dollar stamped with a stallion rearing up. I hope METCA members send rubbings of their odd or unusual tokens, or like Del, just send an unusual story!

DIXIE OODDLINGS

By: Louis Crawford, METCA # 15

This is the first of what I hope will be a monthly (or at least a bi-monthly) column devoted to southern token stories. I hope some of our other Southern members will give me an assist on this endeavor.

The maiden voyage of this column will deal with unusual place names on tokens. I avoided Indian names and the like because "unusual" names of this type are found in every state.

Often a business will be located in a rural area. Thus, instead of putting a town on the token (or omitting the location, giving us the dreaded maverick) the merchant will put the county on the token. M. L. Lachs, according to research, operated a cotton plantation near the Issaquena County town of Duncansby. No information has been unearthed as to what type of business Ed Ash operated, nor as to where in Amite County he was based. E.M. Purcell identified the location of his cotton plantation commissary, the Greenfield Store, as Washington County, Mississippi, instead of the closest town, Glen Allen.

In Louisiana, the political divisions are called parishes instead of counties. Two sugar plantations, Belle Helene Planting Co. of Ascension Parish and Argyle Plantation of Pointe Coupee Parish identified their location by this designation. I know of only one other token with the location given in this manner, a Cival War token from Oconto County, Wisconsin. Surely there must be others.

A location designation I have noticed only on Louisiana tokens is the P. O. (Post Office) abbreviation after the town name. Evidently the business was again located in a rural area and the merchant chose to designate his location by the nearest post office. Known examples of these tokens are Jeandron & Toups, Toups P. O., La. (a sugar plantation store near Lockport), Staring Merc. & Gin Co., Ltd., Iberville P.O., La. (a cotton plantation commissary in operation from about 1900 to about 1920), and Sam Destefano, Crescent P.O., La., who ran a grocery and bar about 1910.

A token with an especially unusual location designation is one inscribed J. Rojas Grocer Clarkville, J.P. La. The die-work of this token indicates that it was struck in New Orleans, but that is all that is known. Clarkville is not listed in any business directory I have seen. I also have no idea what the J.P. could stand for. Possibly J _____ Parish? Does any member have any suggestions?

The Erin Plantation is a cotton plantation that was located on Stack Island, an island in a bend of the Mississippi River called Buncher's (or Bunch's) Bend near Lake Providence, Louisiana. Bunch's Bend is named for Captain Bunch, an early nineteenth century pirate who kept a flotilla in this area.

While many collectors have tokens they consider "heavenly", how many have tokens from the Promised Land? John Meyer and Son operated a sugar plantation commissary along the Mississippi River downstream from New Orleans. This area is generally flat, treeless swampland. However, there is one spot where there is a rise in elevation and a number of large oak and cypress trees. Early settlers called this "oasis" the Promised Land.

The town of Electric Mills, Mississippi today consists of one small store and a few houses. But in its heyday, Electric Mills boasted many homes, a fine hospital, a community center, a theater seating over 500 people, and, of course, the sawmill and commissary of the Sumter Lumber Company. When incorporated in 1913, the town took its name from the electrically driven sawmill. The Sumter Lumber Company was one of the first and the largest sawmills in the nation to be so operated.

If anyone has any questions or suggestions concerning these tokens or this column, please feel free to contact me at 155-D Woodway Drive, Jackson, MS 39206. I will do my best to help. Remember, too, that I am cataloging Mississippi and Louisiana tokens, and I appreciate all new listings.

METCA MONITOR

This listing is of some Channel Island fakes that are very characteristic of the "Western" tokens that were fabricated over the past few years. The die work, odd shapes and metals are quite similar, so there is a strong possibility that they were made by the same individual who turned out the "Western" fakes.

Guernsey Intl. Red Cross, Parcel. 32mm, zinc.

Guernsey, The Forum Cinema, 1941, swastika, Herr Ausweis. 38mm, copper.

St. Helier, 3 R M, Soldatenheim, eagle, swastika. 35mm, bronze.

St. Helier, Revenue Paid To Grow 150 Tobacco Plants. 35 mm, brass, square

St. Helier and St. Brelades, 25 R M, Soldatenheim, flying eagle on arrow point, directed at island on map. 63x32mm, zinc, oblong.

St. Brelades, 3 R M, Soldatenheim, eagle over swastika. 35mm, brass.

Brot, eagle and swastika. 28mm, brass.

Jersey, British Kanalinseln Organisation, Todt- Ausweis, swastika, 5 R M. 64x40mm, zinc, oval.

Although I have not seen all of these tokens, I believe they are all uniface. Prices on these "gems" range from \$10. to \$15. each and a prominent New York state dealer recently offered the lot of 12 pieces shown above, for \$120. If anyone has information about other tokens in this grouping, please forward it on to me.

"THE GLARING ERRORS"

R.B. WORTHINGTON, METCA 253

All of us in the token collecting fraternity are aware of mistakes made by the die sinker in making the dies used in token production. Errors are relatively common in the spelling of proprietors names, city, and sometimes even the state. For instance, glaring errors occur in the spelling of Texas as Taxas on several known pieces. Proprietors names are often misspelled but these are not often noticed, however misspelling of Abilene, Tex as Abeline, Tex. is more noticeable, especially to the collectors of that particular state. There also seems to be several spellings of the word merchandise.

Recently I aquired two tokens from Bellville, Tex. They are Max Bader/Bellville/Tex. The reverses of these tokens are unimportant to this story so I haven't listed them. The 50¢ piece says Tex., but alas the \$1.00 piece says Ill. The tokens are obviously of the same set. A little research was obviously needed. A quick review of Vacketta's "Trade Token of Illinois", did not reveal a Max Bader in Belleville Ill., but Bader was listed in several Dunns listings as Bellville Texas, General Merchandise Dealer. If Max Bader operated Gen. Mdse. Stores in both Belleville Ill, & Bellville, Tex. it was a real coincidence. The answer, of course, is a diesinkers error in state, not even to mention, the differences in spelling Bellville without the E between L & V, as occurs in Belleville, Ill.

This mental lapse, which was corrected on the 50¢ token, was caught by the diesinker. One wonders what would have happened if only the \$1.00 token had been found. This story of an "Error" in state would never have come to light, and a "Glearring" error would have been missed.

Sorry Illinois collectors, but this Tex., Ill, token will have to go into your Texas collection.

This is Richard's third METCA article - he previously did the "Harry Mitchell Story" & "The Morning Call Tokens of New Orleans".

ALASKA TOKENS - will trade rarities for your Alaska paper money, National Currency, Territorial Currency or Clearing House Certificates. Send photocopy if possible. Ron Benice, 25 Stewart Place, Mount Kisco, NY 10549

Joe Schmidt gives a report on the recent national collectible show in IL.

Terry Trantow, lumber token cataloguer, reports that the Georgia-Pacific Historical Museum, in the G-P building at 900 SW 5th in Portland, currently has a display of lumber company tokens, entitled "Logger's Pay Day". It features all different kinds of tokens and scrip, includes many large blow-ups of storefronts, tokens, etc., and includes a mock-up of the front of a general store typical of early day camps. It is very well done. The exhibit will run through about May 10th, and the museum is free of charge. The permanent logging exhibits and displays are worth seeing, too. Copies of the lumber token book are available if asked for, at normal retail price.

Token Topics of the Cal. Assoc. of Token Collectors - March 1980. Dues renewal - \$2.00/yr. Note ATCA (Amusement Token Collectors Assoc.) will begin a bi-monthly publication in July. Dues will be \$2.00 for last half of 1980. Nice article regarding California's gambling ships (some had tokens) operating off coast in late 1920's through the 1930's by Stephen P. Alpert.

The March 1980 Alaskan Token Collector and Polar Numismatist lists some tokens of Alaska's coin dealers; some recent PR's on Alaska tokens; some recent AK trade dollars; and other short articles. Subscription rate for 1980 is \$4.00. Write Numismatic Services of Alaska, Inc., P.O. Box 2832, Fairbanks, AK 99707.

Jack Smith, P.O. Box 26423, Lawrence, IND 46226 has an eight page, 426 plus, trade sale list. The sale ends in April so you'll have to write Jack to see if there is still time to trade or bid on this material.

We are sad to report the death of Canadian METCA member, C.E. Parker, very active collector of Winnipeg & Manitoba tokens. We will sorely miss the many contributions of our neighbor to the north.

Do not forget the 1980 AVA Convention will be held at the Viscount Gort Motel in Winnipeg, Manitoba, Canada August 8-10. James Hemphill, P.O. Box 1321, Lake Oswego, Oregon 97034 is presently taking tokens from those wishing to submit tokens for the floor-mail auction at the AVA Convention.

C.R. Clark's new book, Florida Trade Tokens, has finally arrived from the bindery. It has the complete description of approx 2,800 FL trade tokens with the rarity of all except the modern tokens of the past 20 years. Many pictures are integrated with the stories and catalogue. Tokens used at lumber company commissaries & commissaries of turpentine, phosphate, basket, crate, & sugar manuf. comps. make up a large part of the list, but there is much more information that will be of interest to token collectors. For example, the stories of old Florida post exchanges and other military tokens are told for the first time.

The book is printed on high quality 70 weight enamelled paper with an attractive garnet binding with gold lettering and picture. The catalogue section has 232 pages and the entire book, including the preface, stories, maverick listing, etc. has a total of 304 pages. See ad in classif. section.

The Bank Token Society will hold their annual meeting at the DVVA Token and Medal Show in Philadelphia, PA, June 7th at 3 P.M. Non-members are invited to attend. The meeting will take place in the bourse area of the show.

Noted in the 20 Feb. 1980 Coin World that wood cataloguer, Tom Hudson, died Jan. 21st. Tom will be dearly missed in all wooden money circles throughout the country.

Noted in the March 5, 1980 Coin World that METCA member, George Van Trump Jr. was selected to head the Colorado-Wyoming Numismatic Association.

Did you read the article on the brass tokens used in the Nevada prison system on page 38 of the March 5th, 1980, Coin World?

Page 68 of the 19 March 1980 Coin World features an article on Maryland exonumists honoring Melvin Fuld. A photo shows METCA member, Millard Hajek, president of the Maryland Token and Medal Society presenting honorary life membership number one to Melvin Fuld for his many contributions to national exonumia.

I am sad to report the death of one of the most loyal Pacific Northwest club supporters, Bob Alexander, beloved husband of Irene Alexander. These two from Spokane have traveled for over twenty years all over the Pacific Northwest (and further points) rendering support to local coin and exonumia clubs. The Nystroms (Al and Nina) and I were fortunate to have spent some enjoyable hours with Bob during the recent Coeur d'Alene, Idaho Show. Bob was truly an enjoyable person to be around; he was so knowledgeable in local history, railroad history, and past numismatic circles. He could hold your interest for hours in these areas. Even though Bob was under the weather this past Sept. he and Irene trekked to Seattle to co-host the Seattle Token Show with the Nystroms and Benders. All of us who were fortunate enough to know Bob will cherish the times we spent with him. At this time our hearts are with Irene at her loss.

ALUMINUM 29MM 8 SCALLOPS

OBV Frank Renje/832 N. 4th St./
124 N. 2nd St.

REV Good for/2½¢/cat milk

Chuck Littlefield wrote to inform me that "KRICKERBERG BAKERY" token was probably 19th century St. Louis because of its' similarity to the diework of many tokens used in that area at the time. Also included was a rubbing of what I think is one of the most unusual tokens I've ever seen! The only pieces that may rival this are "L P C of A good for 1 car of stone" maverick and Tom Wall's "good for a pencil" token he informed me of.

I can't help but notice that the token mentioned above is a "good for " which is not uncommon as many METCA readers collect unusual "good fors". I most certainly would like to hear from readers of this column should they have any token that would be entertaining to readers of METCA and this column!

Now for more information regarding this months token I'll simply let Mr. Littlefield's fine explanation speak for itself and quote from his letter - "The token is from St. Louis, Mo. and (was) used about 1914. Frank Renje owned three saloons in St. Louis; at the addresses on the token and on Vine St. Why would a saloon issue a token good for cat milk? Could there be a Cat Milk beer or whiskey?"

Indeed, why would a saloon issue such a token? Can any METCA member shed some light on this subject? If not, we will never know why Mr. Renje issued a token for a 2½ cent cat milk, and in retrospect this may well best remain a mystery! Certainly part of the enjoyment of exonomy is the mystery aspect of the hobby.

This month we have a nice assortment of tokens - salt, seltzer & Bushmen!

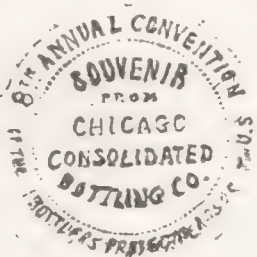

ALUMINUM 21MM ROUND

OBV. Genesee Salt Company / (in

REV. Genesee / factory / filled / salt

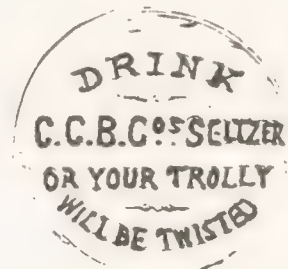

This token is well known, having been listed by Dr. B. P. Wright as early as 1898 in the Numismatist. It is not, however, very rare as he noted, but easily obtainable with a little effort. Of course if Wright's listing of White Metal composition exists separately from the aluminum piece it may well be rare. Do any readers own a white metal example? This would solve the dilemma! More importantly, do any of you have any salt tokens issued during this century? I'd like to list them.

Thomas Casper of Milwaukee sent a pencil rubbing of this piece (which hopefully will reproduce) along with a list of his older Chicago tokens. We don't see too much humor on tokens so I thought I'd list this for your enjoyment!

GILT BRASS 22.5MM ROUND HOLED

OBV. (Around center portrait of Queen Victoria)
1899 * British Transvaal War / 1900

REV. (Around a stylized portrait of a Bushman
on a horse) Good luck to Australian Bush-
mens Corp. / 1900 (in exergue)

Gilt & a little dirt around the letters made this very hard to reproduce, but the subject is so unusual I couldn't resist listing it. How many British Transvaal tokens have you seen? And Australian Bushmen?! This was possibly struck to recognize the contributions by Australian Bushmen during the Boer War in what is now South Africa. These hardy people would have been at home in the climate of the Transvaal, a state within the present South Africa ironically now assigned to Blacks alone (without their choice in the matter!) while the present government pursues it's policy of Apartheid, which I will not elaborate on as most know of this rather odious and archaic practise or have read of it. As a Commonwealth nation Australia would have gladly lent help to the British in fighting the Dutch during the Boer War. Some of my facts are from distant memory of textbooks so I'd appreciate reader help. Thanks and a tip of the hat to Rich Eckebrecht for lending me this token, which is unusual and quite rare.

= TOKENS OF KINZUA PINE MILLS COMPANY OF OREGON =
by Terry Trantow

The Kinzua Pine Mills Company (now the Kinzua Corporation) operates perhaps the oldest tree farm in the State of Oregon. The Kinzua Tree Farm was founded in 1909 by E.D. Wetmore of Warren, Pennsylvania, who in 1905 rode by horseback through the Kinzua area to purchase 50,000 acres of land from homesteaders. The tree farm now encompasses 240,000 acres in five Oregon counties. Kinzua is located in Wheeler County, about 12 miles east of Fossil, Oregon, and was named after Kinzua in Warren County, Pennsylvania.

Kinzua is one of the very few company towns left in the state, but which will gone within another year. The Kinzua mill has closed permanently, and future operations will be at Heppner, some 50 miles away. Heppner operations include a sawmill and plywood plant, which employs nearly 360 persons. The Kinzua townsite was founded in 1927 and the mill was one of the first ponderosa pine mills, if not the first, to kiln dry 100% of its output direct from the saw. By 1979, the townsite will be returned to its original tree farm state. Employees who desire to move will be employed at the Heppner operation.

The Kinzua tokens were issued in 1931, and continued in use until about 1936-37. The town at the time did a business of about \$25,000 a month in store and tavern sales, so the number of tokens may have been substantial. Tokens were issued at the company office, for use at the local businesses. The company honored all requests for redemption, and received tokens from as far away as Portland. Because of the widespread use, and the fact that they would be redeemed from any creditor, the U.S. Treasury Department stopped their use. During the Great Depression, employees were paid in cash. The tokens were issued in denominations of 5¢, 25¢, 50¢ and \$1; no 10¢ denomination was issued.

The tokens were made of brass, except that only one set is known in aluminum. According to a retired Kinzua employee, \$400 worth of counterfeit tokens were struck in "tin," but can be identified by a dot or mark under the denomination. It can be assumed that these were made to resemble the aluminum pieces, or, in fact, are the aluminum tokens the "tin" pieces struck as counterfeits? The fact that the obverse designs of the aluminum pieces are slightly different from those of the brass pieces may suggest this. Other employees from Kinzua do not recall pieces of aluminum, only those of brass. The reader may decide if the aluminum pieces are the "counterfeits."

LUMBER TOKENS

Kinzua's stationery was printed in Portland by Bushong & Co. (now out of business) for many years. It can be assumed that the company also arranged for having the tokens made, perhaps by Irwin-Hodson Co. of Portland. In any case, the known pieces are as follows:

	K.P.M. CO. / (tree) / KINZUA, OREGON

BS RD 38	Good For / *100* / In Trade	R3
AL RD 38	" " / / *\$100* / / In Trade	R10

(Notes: On all the above pieces, the obverse is slightly different between the brass and aluminum varieties. The rarity guide used is that found in Coal Company Scrip, published by the National Scrip Collectors Association. Many thanks to Duane Feisel for additional listings to what I had recorded, and for photos.)

The last log processed at the Kinzua sawmill was at 1:15 PM on May 17, 1978. Since its beginning, the Kinzua company had planned for a permanent operation, and at present is realizing that goal. Current production is over 5 million board feet of lumber per month, and nearly 10 million square feet of 3/8" (equivalent) plywood/-veneer.

In a short while the town of Kinzua will be gone, but the tokens recall earlier days. Kinzua Corporation is to be admired for their foresight of the timber industry.

VOTE FOR

GEORGE R. OWEN for

TAMS BOARD OF GOVERNORS MEMBERSHIP !!

why?

Simply, TAMS 1,750 members don't know much about how the board works - it's supposed to work for you & me and reflect our ideas. So why haven't we felt that we've had a part in TAMS decisions?

Frankly, I'm going to do what hasn't been done - nothing difficult or hard and you'll agree it should have been done before.

I WILL SOLICIT YOUR IDEAS (IT ONLY COSTS 15¢ AND I SHOULD HEAR FROM A LOT OF PEOPLE) CONCERNING BETTERMENT OF THE HOBBY, ANSWER YOU PERSONALLY, BRING YOUR BEST IDEAS BEFORE THE BOARD AND THEN TAKE OUT PAID ADS TO TELL YOU WHAT HAPPENED TO YOUR/MY IDEAS! Simple as that.

Let's make the hobby better with participation by all. First, though, I need your vote - it only takes 15¢. I feel so strongly about member participation, wasteful projects and spending I'll simply resign if I don't feel I'm serving you.

You've told me already that you want a regular TAMS journal Fake & Fantasy column and that's what I'll propose first. I'm not going to buy your vote - no trinkets and tokens - I just want to ask for it.

Qualifications: Numismatist since 1956, exonumist since 1969. Well versed in all phases of exonomia. Ran mail bid sales regularly for 2 years, member of ANA, TAMS, METCA and others. Local Club member, award winning exhibitor, Author or co-author of 5 articles and 2 catalogs. Current cataloging projects: "SALCON TOKENS OF AMERICA" & "STORECARDS OF ILLINOIS". Contributor to 4 exonomia works. Retired teacher, University of Texas degrees in English and Music.

ELECT SOMEONE WHO'LL DO SOMETHING UNUSUAL -

REPRESENT YOU FULLY!

A REPORT ON TWO CHICAGO AREA SHOWS

Joe Schmidt

The largest antique show in the nation was held in Chicago suburb Arlington Heights March 27 - 30. 160 dealers and \$20 million in antiques put me at the head of the line on the first day. After 4 hours of walking & looking I left with a shopping bag of 1933 Century of Progress exonumia I obtained from the one dealer with fair prices. Antique dealers still do not know exonumia and it shows. \$10 1933 C.O.P. elongateds and \$40 common ad mirrors?

March 28th was dealer set - up day at the National Collectibles Exposition at Chicago suburb Rosemont. From Noon until 9 pm about 50 dealers filed in and buying was fast paced the entire day. It seemed no one could set up without a dealer asking about what he had! All were polite save one bearded churl who seemed to reach into briefcases before they were opened. Rich Hartzog was busy all day greeting dealers and solving scores of minor problems. Luckily Rich was helped by wife Marilyn. Their 3½ month old daughter must be getting used to bright lights and loud noises already!

At 10 am Saturday dozens of collectors flooded the show floor and the buying began! Sales never let up until Sunday closing and many dealers I spoke with expressed satisfaction with sales and profit. This, in turn, meant many exonumists found additions for their collections. All I spoke with agreed! Record prices were set for Illinois storecards and I noted early storecards being snapped up by collectors and dealers alike - with or without discounts. Luckily no one bought much from an Indiana dealer who visibly marked "1" in front of 5.00 and changed \$15 to \$25 on Illinois tokens!

Auctions by Johnson & Jensen and Paul Cunningham brought high mail bids and moderate attendance. I've just a few gripes and will get them over with. Grant Schmalgemier's 1933 Century of Progress exhibit was untitled and off in a corner. Few visited this superb and most educational exhibit. Perhaps these should be titled and placed in a center aisle for all to enjoy and then move off in either direction to the dealer tables. Everyone I questioned thought a dollar admission more reasonable. Perhaps exonumists under 18 (our hobbies future) should pay no admission. Wives seemed fascinated by tokens and the many collectibles. If the wives are as much an influence as market analysts think maybe they should get in at half price!

Overall this show was really good. With a few first time bugs ironed out and the logically central location kept it would soon be great. Dealers and collectors I spoke with were totally satisfied, attendance was high and sales were higher. Postcard dealers and collectibles dealers operate on a lower volume than exonumists and need more space. All bought some little item to bring home to the wife or for themselves from these dealers so more could be encouraged to come with a bit of a table discount - just an idea! So the National Collectibles Exposition was a very good show and can only get better.

Let's not knock shows like this. Coin shows feature merchandise priced 10 or a 100 times higher than most exonumia. It's obvious Exonumia shows will not bring thousands of people because few will travel 1500 miles to spend \$100. Ad these items featured at the Expo such as collectibles and bring in other types of things like postcards, paperweights or the like and keep it one place and we'll see a lot of regional, well - attended shows!

P.S. Fellas, how about free coffee next time? That stuff was 90¢ a cup and could well have powered our cars !

I received MEDLEMSBLAD, ARGANG 2, NUMMER 2, 1980. It is the newsletter from the Danish Token Club. If I can find a Danish translator I might be able to give you an address at a later date. Johnson, Rice, KS 66901 (913) 243-3151 is handling reservations information/motel reservations, etc. He reports there will be no charge to set up. He expects several major collectors and dealers at this meet, along with a variety of high quality exnumia.

I regret to inform the membership that Mary Kopanski, Alaska collector residing in the Seattle area, passed away Nov. 23, 1979. Mary was a great delight to the local token circle and to the Alaska collectors who came down to the Pacific Northwest Token & Medal Show. Many of the AK collectors sought her out to talk tokens and Alaska history. She will be dearly missed by all of us who shared her interest in Alaska exnumia and history.

Bill Massey makes note of an interesting, recent, and largely unexplored field (doubloons) in this issue.

I am pleased to report that METCA member, Frank W. Kroha, took first place in the Metropolitan Numismatic Convention in April in the token and medal category. Frank displayed "Merchants Tokens-Lower Manhattan New York City 1845-60". Frank also took first place with the same exhibit at the Greater NY Numismatic Convention May 1-4: This was sweeter because there was only one category of "United States" which included everything pertaining to U.S. He will be displaying at three more shows in 1980: Cherry Hill NJ (GSNA), Red Bank NJ (Monmouth County), and Point Pleasant (Ocean County). Why don't you in the area get out and view Frank's exhibit?

The point we are trying to get across is exhibits are really educational and the membership can make them localized. The public doesn't know of the merchants form of advertising or the reasons.

The next meeting of the Florida Token Society will be held at the Sheraton Sand Key Hotel on Saturday July 5, 1980. All METCA members who may be in the area on the 5th are welcome at the FTS meeting and swap session. The meetings usually last from 9AM to 4PM with a business at 1:00 PM.

John H. Stribbel, P.O. Box 20438, St. Petersburg, FLA 33742 (813) 525-1754 has list 43 (over 900 tokens, medals & foreign coins) at fixed prices. Send for it.

CATC (California Association of Token Collectors) reports a March meeting celebrating Roland Atwood's 84th birthday. Roland's name is synonymous with transportation tokens - an area he extensively researched and catalogued.

The May 1980 AK Token Collector & Polar Numismatist features an article on the Arctic Winter Games and some of its exnumia. In the 1st anniversary issue you'll find 2 nice new discoveries in AK tokens: (1) R.R. Hubbard, Douglas, Alaska GF 5¢ IT; and (2) Log Cabin Bakery, Ketchikan, Alaska GF 1 large loaf bread. Have you ordered your new AK catalog - Alaska Tokens by Ron Benice? How about "Yukon Trade Tokens" by Simpson & Hill?

S.L. Steinberg, Box 512, Malden, MA 02148 has lists 72 (67 items) and 72-A (64 items) and a later issue available on request.

John Cheramy Coins, P.O. Box 5214, Station B, Victoria, BC, Canada V8R 6N4 has an eight page (check, want & selling) list available (May 1980) for Canadian tokens & medals.

The 16 Apr 1980 Ft. Worth Star Telegram (eve. edition) had a nice AP writing, by Nancy Shullins, on "New Collectors Mining Worth of Coal Tokens." It is one of many articles (I understand) that carried news of token collecting (due to a number of interviews of Mr. W.E. Williams, president of the National Scrip Collectors Association). (Thanks to Jerry Adams, Texas collector from Fort Worth for sending in the news article).

During the month METCA member Henry Keene from Ketchikan, AK visited Evergreen Stamp & Coin for a nice visit. I always enjoy meeting & visiting with members in the area. When in the Seattle area drop by Evergreen Stamp & Coin, 1645 140th NE, Bellevue, WA 98005. (206) 747-5056 (10-6), your token & medal headquarters for the Pacific Northwest.

The Dallas Morning News 13 April 1980 (the Ft. Worth/Metro section) carried a nice article by Pat Gordon of the Fort Worth Bureau of the News on Jerry Adams, METCA member, collecting Texas tokens in the Fort Worth area. The article focused on Jerry's total collection of 3000 tokens and notes his Fort Worth collection of over 150. Some of Jerry's favorites include: a fancy scalloped piece GF 12½¢ at Sheehans, 705 Main St., circa 1896 to 1900 ("The Saloon is famous," Jerry says, "because of the photo of the outlaws Butch Cassidy and the Sundance Kid standing in front of it."); the White Elephant Saloon GF 1 Drink; and Leonard Bros. GF ½ cent towards a purchase. Jerry, like many of us, is a history buff and readily admits "the historical aspect of the unofficial coinage whetted his interest."

I've looked long
And I've searched hard
Been told I was wrong
To hunt that elusive store card

Yes, I've found some
Though the norm has been none
But I'm going to keep looking
As I'm bound to find something

Received a call one day
Of a hoard forty miles away
Jumped in the car
Envisioning tokens by the jar

Tracked down an old man
I noticed carrying a can
What I thought was a lead
Turned out to be chicken feed

Was directed down the road
To an old shambled abode
Where rocking in a chair
Was an old-timer without a care

Well, he took me out back
Heading towards a rickety hack
Reaching over the rusty rack
He dug out a crusty grain sack

Well, my mouth flew open
And I was praying and hopin'
Let there be a trade check
A thousand, what the heck

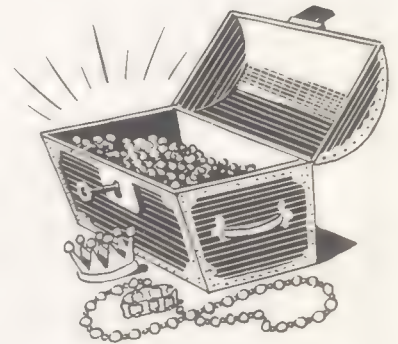

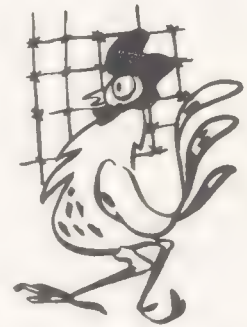

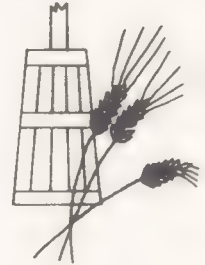

Well, I reached way down
Where I thought a hundred must abound
Pulled out nothing but a tax token
I'm going to tell you I was smokin'

Though I felt sick
I still hoped for a Chas Pick
Why I didn't care
If it said "good for one fare"

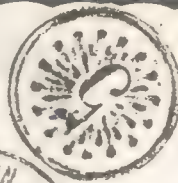

I dumped out the entire hoard
On a rough hewn board
And to my great delight
Many different trade checks were in sight

Now 40 miles didn't seem so long
When faced with this varied throng
Many new tokens were added to my collection
By this old-timer's fine selection

It seems this immense amount
Had been part of a vender's route
We arrived at a fair price
Collecting tokens can be nice

Not long ago at Ben Odesser's bourse show in Chicago suburb Morton Grove I spent some time looking over the usual panoply of exnumia that Bens' show seems to feature. Most everyone has something of interest besides the ubiquitous U.S. and Foreign coins! I had chance to look at Rich Ekebrechts newest acquisitions for the sole purpose of finding tokens for this column and found what I wanted among a fascinating group of tokens Rich had been acquiring for some time, exnumia from the worlds' largest amusement park at the time - Riverview.

Shown are many different types of tokens from the park. The piece with the rays surrounding the 5 is probably a token of S.H. Quint as this style is probably uniquely theirs! I believe this would qualify as one of the earliest emissions from Riverview as well. I might point out to METCA members that "R.V." or "R.V.P." mavericks may be from Riverview Amusement Park. The 2¢ Saturday piece is the most common and is not difficult to obtain. The holed "One Free Trial" piece looks much like an amusement token and is the first I've seen. Most interesting is the bi-facial solid "One Free Trial" "Riverview Park" token. The rubbing was made very difficult due to many small counterstamps on both sides! Perhaps these were punched by the vendors or ride overseers.

I've resisted mentioning the history of the park as I believe this subject should deserve a full page article. I might point out the impressions that were made on a youngster who visited the park 25 years ago and until it's closing! The "freak" show house was emblazoned with a picture of a huge multi-colored frog advertising and enticing the onlooker to pay 25¢ to see the "toad man". This was something I would have paid four times this amount to see however I was to leave this show with a deep feeling of sadness. Introduced was an elderly man who, in a halting voice, took off a robe to show large growths on his skin which he explained no doctor or any man of medicine had ever been able to treat or reduce. Pathetically, he simply put his robe back on and shuffled off the make-shift stage, leaving everyone feeling both cheated and saddened. This type of show is no longer tolerated to my knowledge, and rightly so! Of course the many rides, thrill shows, thousands of colored lights blinking on and off in a seeming state of panic will remain with me for a long, long time.

I know that most all METCA readers have something in the way of an unusual good for token and I'd like to appeal to you to send along a rubbing so I might feature these! My rubbings are not the best, yet I've been asked how they are made. I pull off the mylar from 2x2 holders, put a cigarette paper over the token and the 2x2 over the paper to hold things in place and then rub with a 77 black china marking pencil. Hopefully, the results will be good! Should the reader have a way of bettering this method I will mention it and adopt it should it prove superior. Meanwhile, I'd like to collect a number of unusual "good for" tokens and feature them for a few months!

BRASS 90 MM ROUND

" CELLO " OBERSE WHITE-BLUE BORDER

No doubt few of us have seen a wall file calendar! An unusual item that is most assuredly exnumia. Shown 1/3 reduced, this is brass and hollow something like a shell-card except that the obverse is like a mirror card, paper and cello. The loop at top folds back and the copper hook on which bills were hung retracts up into the back of the device. This example is about 8 MM thick and is white with a blue border and black lettering. I've not seen a wall file calendar before and as an interesting & collectible exnumia item I'm surprised these are not sought after. Perhaps these were in vogue for only a short time! I'd like to know if any METCA members have these.

Regarding the Burnham Gum Machine works token featured in the July column, Les Burzinski sent me rubbings of 2 pieces he owns, both of which have "CHICAGO" but one exhibits stops after the word and the other does not. I wonder how many other Burnham types are extant? My thanks to Les for writing and I hope to hear from you!

While on the subject, the new Alpert & Smith "AMUSEMENT TOKENS OF THE UNITED STATES CANADA" work is now available from Stephen Alpert for \$24.95. Write him at P.O. Box 66331, Los Angeles, California 90066 for a copy and ask for his latest fixed price as well. Anyone having large "souvenir" coins could send exact data to Steve for additions to his "LARGE LUCKY SOUVENIR COINS" also available at the above address for \$5.00.

An Idaho Maverick's Attribution
by John D. Mutch

A local coinshooter recently found what was left of a small leather pouch which contained an interesting group of tokens. I feel that they satisfactorily attribute one maverick long suspected to be from Bruneau, Idaho, and gave enough evidence to tentatively attribute another.

The bulk of the tokens were of four varieties. The first two, Brown's Cigar Store, Bruneau and Mountain Home, Idaho were contemporary and issued by the same man, according to my research. William B. Brown had a cigar store and pool room in Mountain Home from about 1912 to the late 1920s. The 1914 Bradstreet's directory lists him in Bruneau also. The 1919 Bradstreet's shows him also in Glenns Ferry, but no tokens are known from his store there.

The third variety in the hoard was the Brown's Cigar Store maverick of which I had long been suspicious due to its "West Coast" diework. I am now convinced that Brown issued it purposely as a maverick to be used in any of his stores—he may even have hoped to someday have a chain of Brown's Cigar Stores in the area.

The fourth variety is a simple numbered maverick, similar to many described in the August, 1976 TAMS Journal article by Alpert, Finch, and Smith. Well over a quarter of the tokens in the hoard were of this type and no other numbered mavericks were present, so I have to believe that these #4034 tokens were issued in connection with Brown's Cigar Stores and will catalog them as such. Note the similarity in diework between this token and the Bruneau piece; both appear to be products of the Salt Lake Stamp Company.

The hoard also contained two other Idaho tokens, one from the Pastime in Mountain Home and one from the Grandview Pastime, a fairly well-attributed token from nearby Grandview, Idaho. I have found no information to date on who operated these two "Pastimes" so the possibility exists that William B. Brown was involved with them also.

THE LOWLY DOUBLOON

Surely no collector who has ever rummaged through a junk box is unaware of the ever present Mardi Gras Doubloon. Along with Missouri Tax Tokens, Wooden Nickels, New York Transit Tokens, Washers and Bottle Caps, these colorful, often patriotic, and sometimes mystic tokens seem to appear with no end in sight. Surprisingly few collectors are really very familiar with this rather recent New Orleans tradition.

Mardi Gras has been called the "Greatest Free Show on Earth." The parading maskers have been organized as "Krewes" since the 1800's. Today, more than 50 major krewes parade during the Mardi Gras season, which actually begins two weeks before "Fat Tuesday," or Mardi Gras Day. Many spend huge sums on elaborate floats and costumes and follow traditional parade routes through the city. Others are simply called "Walking Clubs," and wander in a somewhat random fashion throughout the Vieux Carre.

Maskers of Mardi Gras parade floats have traditionally thrown favors to the waiting crowds. "Throw me something, mister" is a familiar cry during the Mardi Gras season.

Historically, coins have been thrown by the paraders, and the traditional coin of old New Orleans was, in the days of pirates, buccaneers, the Spanish Main, and the brothers Laffite; the Spanish Doubloon. Since then, strings of colored popcorn, and more recently, glass, then plastic beads have been a popular throw.

In 1960, the Rex organization commissioned engraver H. Alvin Sharpe to design an inexpensive medal to be struck as a new carnival "throw." The requirements were that the medal honor Rex, King of Carnival and Monarch of Merriment, and depict the theme of the parade, *Por Bono Publico*. In addition, a few of these medals were to be struck in silver for presentation to the Krewe of Rex.

The "tradition" rapidly caught on, and today, every Mardi Gras parade, numbering over 50, issues a yearly doubloon. Thousands of these trinkets are thrown to the crowds. It is estimated that some 8,000-10,000 different Mardi Gras Doubloons and related items have been produced since their inception in 1960. Catalogs have been attempted, but are soon outdated by some 500 new additions annually. It is impossible to estimate the total number of doubloons in existence.

Even more confusing is the fact that similar medals are being struck with increasing frequency for holidays, special events, political campaigns, and by private individuals and businesses. The Mardi Gras Doubloon is becoming the New Orleans Doubloon. And, its popularity is spreading to other Louisiana, and even Mississippi towns who have their own Mardi Gras celebrations and their own doubloons.

The original, undated, Rex doubloon catalogues for a minimum of \$35.00. The dated variety is priced at up to \$100.00, and the silver presentation piece for as much as \$1,000.00. Though the large majority of doubloons are in the 10¢ category, there are many "sleepers" as in any area of exnumia.

Most doubloons carry two dates; the year the medal was issued, on one side, and the year of the founding of the issuing organization on the other. The "throws" are struck in various colors of anodized aluminum, and more recently in plastic. A particular issue may also be struck in brushed aluminum, antique bronze or oxidized silver. A very few are reported to have been struck in gold, and many multi-colored enameled pieces exist.

For the young or beginning collector, the doubloon offers a challenging, inexpensive, and largely unexplored field. Many of us "specialized" or "advanced" collectors may be overlooking a very common, but fertile area of collecting.

Best trade or cash offer. Trades will have preference. Will trade for North Dakota tokens. Postage and insurance added to suddessful bids.

Clark's Rexall Drug Store Issues Own Unique Bicentennial Medal

Clark's Rexall Drug Store issues unique medal to celebrate it's 25th Anniversary and to honor our United States Bicentennial.

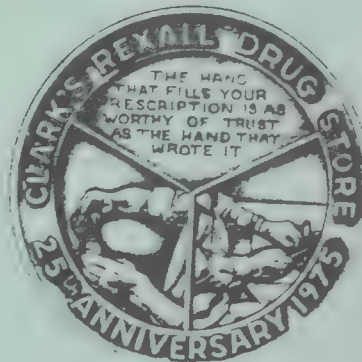

The Limited Edition Medal in both bronze and silver should become a collector's item to nostalgic Greenville citizens and all over the United States where our famous "The Blackest Land, the Whitest People" sign is known.

The famous slogan came from the business card of Will N. Harrison "The Land Man" to the sign which hung over Lee Street opposite the "Katy" Depot from 1921 to 1965. The Greenville Chamber of Commerce under President Doctor Joe Becton made the now famous sign and gave to the City of Greenville.

The Clark's Rexall Drug Store side carries Clark's slogan plus the hands of Pharmacists Gerald B. Clark and J. B. Clark practicing pharmacy.

You may buy this limited edition "Dollar" size 1½" medal at Clark's Drug Store, 2510 Lee Street in Downtown Greenville, Texas . . . Bronze for \$3., Silver for \$15. plus 5% Texas Tax. Mail orders may be had by sending above plus \$1. per order handling to J. B. Clark, P. O. Box 1063, Greenville, Texas 75401.

For a number of months many members have expressed to me the idea of relaxing the METCA Maverick Guidelines to help identify some of their tokens that do not fit the regular column. Your METCA Maverick Editor, Lee Nott, and I discussed the idea at length in a recent telephone conversation. Lee has expressed to me that he would like to make it a "special" column of 3-4 pages, featuring really unusual pieces - pictorials, odd denominations, as well as regular pieces. Lee would like to limit this special column to no more than two mavericks per member. This special maverick column will probably be featured in October. We all have mavericks with maybe just an unusual name, etc. we would like to attribute. Get your listing or rubbing, or both, to Lee for this special column to be feature in the fall.

Williges has a new price list available to the membership if you enclose a 15¢ stamp. He will also send his personal token good for 50¢ on any purchase. Williges P.O. Box 445 Wheatland, CA 95692.

DVVA Exonumia Show Report: Al Zaika reports that the dealers and collectors attending the DVVA Token and Medal Show in Philadelphia commented favorably about the show, feeling this was the best show yet. Twenty four dealers were in attendance in the bourse, with John Hamilton III, coming the longest distance (from California). Attendance by the public was up from previous shows and the registrations show collectors attending from sixteen different states, including California, Florida and Minnesota.

You can visit with George Hosek, Nebraska collector, at the Philamatic Center at Father Flanagan's Boys' Home, Boys Town, Nebraska 68010.

Since I am very late with this double issue, many of you should double check with Charles Kirtley, P.O. Box 259, Marble, NC 28905 on his latest fixed price list. This should also apply to Williges, S.L. Steinberg and others.

S. L. Steinberg's mail bid listing is available from Box #512, Malden MA 02148.

The May 28, 1980 Coin World featured an article on Harry Campbell's Tokens of Utah. This 250 page catalog lists some 3,000 tokens. See Harry's ad following his mail bid sale. Please don't delay in submitting your bids as I am late in getting out this issue. Harry is leaving the U.S.A. in the fall to live in Brisbane, Queensland, Australia. He has greatly enjoyed his seventeen years in the states, and, has greatly enjoyed searching Utah's history through her tokens. Harry will dearly miss the ~~may~~ friends he has made in token circles (and we will miss him, too), however, Australia has tokens, too, so it will be another trail for Harry to follow.

I had a nice telephone conversation with R. W. Law, Louisiana collector of lumber tokens, while he was visiting relatives in the Seattle area.

Others who called of late were Jack Harvill, Gene Kirschten, John Calhoun, Ron Benice, P. M. Fuhrman and more. Benj Fauver dropped in the shop a week back and was able to find a few items of exonumia interest. I hope to be back on the show circuit this fall (after my fast pitch softball season is over) and meet many of you in the Pacific Northwest. If all goes well I should be in Billings in mid-August for the regional softball tourney and from there hope to trek to North Dakota for the last week of August or so.

I am receptive for the membership's feedback on the date selection of the Third Annual Pacific Northwest Token and Medal Show to be held in Seattle. I am tentatively thinking of mid to late September. Any comments from those of you who have been loyal participants in the past?

If your mailing envelope has a red "check reminder" stamped on the obverse, please check your records to see if you have remitted your 1980 dues. I have always been very lenient on this, however, costs are mounting more than ever.

The July 1980 Token Topics of CATC (California Association of Token Collectors) notes Ben Odesser from Chicago attending the Los Angeles meeting.

The Bi-monthly publication of the ATCA - Amusement Token Collectors Association is "The Jackpot".

Lee Nott wrote to say that the city of Durango, Colorado has issued a "Durango Dollar." One side shows the Durango-Silverton RR, the other side states that it is good for \$1. These are the 1980 issue - available from Durango, CO 81301 (Durango Rotary Club, Box 38). Price is \$1.00 plus 40¢ postage and handling for each coin ordered. There is a 1979 issue, but not available singly. There is a set of one 1979 and one 1980 available for \$5 per set plus 50¢ postage.

Received a nice article by Elmer Curran reporting on tokens and medals in the Asbury Park Press, Asbury, N.J. 07712 where he plugs METCA as well as many other exonumia organizations.

Ralph Burry, B.C. Canada collector from Vancouver, has retired now and moved to Vancouver Island. Please note his new address: 9359 Village Way, Sidney, B.C. Canada V8L 4K8.

The June and July Numismatist features Thomas L. Elder - A Catalogue of His Tokens and Medals by Thomas K. DeLorey. Also in Exonumia Notebook, David Schenkman authors an article with photos on James Murdock, Jr., Cincinnati Die Sinker (an appropriate article with the approach of ANA 1980 in Cincinnati in August).

Please Note - ANA August 18 - 23 1980 - 89th Anniversary Convention in Cincinnati, Ohio. There are a number of exonumia meetings at the convention.

Get Well Fred! Scrip Talk reports that Scriptor Fred Lange has been hospitalized since mid-June. We wish Fred a speedy recovery. Cards can be sent to Fred at P.O. Box 7624, Hollins, VA 24019.

The August Scrip Talk features an article on Arkansas Coal Companies by T.H. Robinson, a List of 1893 Illinois Coal, Mining and Supply Stores by George Owen and Joseph Schmidt, Scripology by Charles Ross, and some other fine columns and articles by Cindy Grellman, Tom Hitt, and others.

For membership information on the Georgia State Token Exonumia Association - GSTEA write John F. Deloach, 2059 Templewood Drive NE, Atlanta GA 30319.

I have been asked to list several tokens that do not fit the maverick guidelines printed a few issues ago. I will run a column of the more unusual ones I receive before September 1st. This will be a special column; the requirement to have two types of identifying information will be used for the following months.

NICKEL 21MM ROUND

OBV In Newcomb we trust / V / .cents.

REV Greensboro, N.C. / (Barrell on which is inscribed "Wines
Liquors") / .1891.

Above the first of a pair sent in by Paul White, both quite interesting of course! This piece matches nicely with this column's February, 1979 "In Krickerberg we trust" token. Perhaps Mr. Newcomb was attempting to emulate the then circulating "V" nickel. Although we'll never know, the composition and the seldom seen "V" indicating value might indicate this.

A "Wines & Liquors" barrell is one device we seldom see on a token, either, and adds to the uniqueness of this token, which is also dated 1891 and from North Carolina! Any other such tokens noting the proprietor's name in the slogan should prove interesting and a "register" of these types could be prepared!

GILT BRASS 32MM ROUND

OBV This coin is redeemable / in cash / value 15¢ / by R.M.
Rose Co. / distillers / New York City / and / Chattanooga /
Tenn. / "Ask the revenue officer"

REV Good for / one drink of / Forefather / Corn whiskey / at any /
first - class / place / Clubs, hotels & Cafes.

A nice example of why collecting and enjoyment can go hand in hand! No matter what you collect I'd bet this token stimulates your interest! Here we have the unusual combination of dual value- 15¢ or a drink; and dual towns- Chatanooga and New York City. I really wonder if Forefather Corn Whiskey was available at "first - class Clubs, Hotels & Cafes"! I've heard that corn whiskey, especially the early types, were not at all soothing to the imbiber's throat. A nice touch to this piece is the "Ask the revenue officer" slogan. I remember other R.M. Rose tokens and if the reader has one drop me a line and a token rubbing. Write Paul White at Box 185, Fayville, Mass. 01745 and ask for a copy of his next excellent mail bid sale!

BRASS 38MM ROUND PLAIN EDGE

OBV King's daughters / hospital / Middlesborough / Ky. / 100

REV Good for / 100 / one day / in / hospital

A letter from noted Coal Scrip collector "Tip" Tippy from Oak Ridge, Tn. , who sent a rubbing of the above piece, a great find! Here's Tip's letter:

"Reference my poor effort of rubbing enclosed. This token fascinates me and I've done considerable research - all non-productive!

This token was excavated and condition is not good. I do know this hospital operated late 1800's - early 1900's. Founded by the English, the town name is now spelled "Middlesboro". During the period this token was issued many coal mines operated in the area. I think these were used in conjunction with coal mine injuries but cannot prove this."

Thanks for sharing this one with METCA readers, Tip, it certainly is a nice one!

Nice letter from Rich Hartzog concerning the Riverview tokens. It seems Rich considers the R.V.P., R.P. Co. & One Free Trial pieces common. After telling of buying 1,000 of these 3 types from a Florida man some 5 years ago I guess that would sure make them available. One paradox, Rich found only a couple dozen 2¢ Saturday tokens. They are available around Chicago, though. Anyone remember (as I do) seeing these tokens given away in merchant shops in the late 50's? Rich notes 2 of these pieces listed in the AVA "Farebox" a year or so ago. Were these definitely "TT's"?

Heard from Kendall Ballard in Idaho; he has collected "anything Idaho" for years! With John Mutch and all the other Idaho exonumists constantly searching and re-searching Idaho material we can be sure the state will be well represented! Ken's WALL FILE CALENDAR is similar to the one listed excepting the "safety-pin" type of bill holding hook. His has a picture of a building & a car on his, which is black with white lettering and was issued by Hahn Plumbing in Lewiston, Idaho. It seems this type of exonumia is both collectible and colorful! Thanks to Ken for writing!

This well-rubbed, 25mm, round token from Little Rock, Ark. was sent by T.H. Robinson of Pine Bluff, Ark. and is a really nice political you won't see often. I won't list wording due to lack of space and because this is a fine rubbing. Fred Garrett issued this piece when he ran for office of Chancery Court Clerk of Pulaski County in the early 1900's. T.H. notes a "good for" political as being somewhat scarce and I'd agree with that! No new Arkansas SALOON tokens noted yet, but I'll keep all informed!

TRADING LIST OF BARY BENDER, 752 N 74th, SEATTLE, WA 98103. June-July 1980. I will consider cash offers, however, trades have priority. I collect the southeast part of WA State - towns of Dayton, Waitsburg, Starbuck, Asotin, Pomeroy, Prescott, Uniontown, Colfax, Touchet, Clarkston, Colton, Palouse, Garfield, St. John, Cloverdale, and other Whitman County towns. I will consider any and all Washington State merchant tokens not from these areas.

(From The AMUSEMENT TOKEN COLLECTORS ASSOCIATION)

The recently organized Amusement Token Collectors Association (ATCA) will begin a bimonthly publication entitled THE JACKPOT, with the first issue to be published in July.

The initial eight-page periodical will contain news, articles and ads on the collecting and history of tokens related to slot machines, pinball machines, amusement arcades, and other amusement and vending machines. Featured each issue will be several pages listing newly issued amusement tokens and also new discoveries of older amusement tokens. These sheets will supplement the recently published catalogue "Amusement Tokens of the United States and Canada" by Stephen P. Alpert and Kenneth E. Smith (the founders and organizers of ATCA).

Dues in the Amusement Token Collectors Association (which includes a subscription to THE JACKPOT) is \$2.00 for the remainder of 1980. Charter membership will remain open through 1980. Send \$2.00 dues, cash or check payable to Eleanor Smith (ATCA's secretary and treasurer), 328 Ave. F, Redondo Beach, Calif. 90277

SHOW HOURS: 10 AM - 10 PM or later on SATURDAY and 10 to 5 PM on SUNDAY. BOURSE DEALER INFORMATION should be directed to BARY BENDER, 752 N. 74TH, SEATTLE, WASHINGTON 98103 TELEPHONE-- (206 - 747 - 8358 in the day and 206 - 782 - 5769 in the evenings. The RESTAURANT and LOUNGE across the hall will be open from 5 PM to 10 PM Saturday and Sunday with the regular menu or buffet in effect. It is virtually impossible to schedule an event these days without conflicting with another event. With this in mind, I apologize to the Evergreen Coin Club Show to be held October 25 -- 26 at the Lewis County Mall in Chehalis, Wash. I would hope that members planning to attend our show will stop on their way to attend their show if it is on your way. This is an EXONUMIA gathering and is really not intended to conflict with their NUMISMATIC event. With the number of fall shows already booked, and the unavailability of facilities with open dates, these conflicts do occur as is this case.

Jerry Roughton has just received word from the Secretary for the North Carolina Numismatic Association notifying him that a conference room will be made available in Charlotte, N.C., during their yearly convention, for a organizing meeting of a North Carolina Token and Medal Society. There is a favorable sentiment in this area towards such an organization and this will be a first attempt to actually organize. The meeting is tentatively planned for 11 o'clock, Saturday, October 11th in one of the conference rooms (signs will be posted) in the N.C.N.A. Convention. The Convention will be held at the Holiday Inn North, 3815 N. Tryon St., Charlotte, N.C. Anyone interested in further information may write Jerry Roughton, P.O. Box 5651, Greensboro, NC 27403.

1980 METCA Dues are way OVERDUE! Why don't you check your records, too!

This issue should get us back on schedule again. Thanks for bearing with me. I get letters requesting specific deadlines on mail bid sales, etc. Many members think they are receiving their issue late, however, the truth of the matter is everyone gets their issue fairly close to the same time (that is why I have recommended that sales close two to three weeks after the issue is received. The June - July issue, for example, probably got to everyone by Aug. 5th or so. It wasn't slow mail, just me getting behind during the summer. My summer months are filled with fast-pitch softball (approx. 80 games in four months with many out of town and out of state tournaments) so I always manage to get way behind. (The team I am player-manager of took second in regionals - out of twenty-one teams from five states - recently in Billings, Montana). I apologize for not calling on some members along the way and in Montana and North Dakota, however, time flies too fast and the hours I passed through many towns were not convenient for calling on people.

Al Zaika reports the formation of a new collectors society (see info notice elsewhere) - New Jersey Exonomia Society. Al reports that after a year's effort the group finally organized and have signed up 27 members so far.

Are you on Williges' mailing list for fixed price exonomia? Write Box 445, Wheatland, CA 95692. The lists appear every two months (approx. 16 - 20 pages).

Henry C. Keene, Jr., METCA member from Ketchikan, reports a nice Haines, Alaska commemorative token available by writing to the following and including a check for \$1.25 each made out to the Haines Chamber of Commerce: Mr. Carl Heinmeller, Chamber of Commerce, Haines, Alaska 99827. It is a nice comm. token good for one dollar in trade until Sept. 15, 1981. The commemorative trade dollar is described in a recent Alaskan Token Collector and Polar Num.

Elsewhere in this issue, W.E. Nickell, Juneau member, sends along information on a TAXI token issued to help celebrate the 100 year Alaska Centennial.

Are you on S.L. Steinberg's Exonomia Mailing List? Write him at Box 512, Malden, MA 02148.

The Aug. 1980 Alaska Token Collector & Polar Numismatist features an article by Henry C. Keene, Jr. on "Tokens from OK's Place in Petersburg, Alaska". The ATC & PN is a publication of Numismatic Services of Alaska, Inc., PO Box 2832, Fairbanks, Alaska 99707.

R.W. Colbert, 4156 Livsey Road, Tucker, GA 30084, "reports the ongoing project to catalog Georgia's trade tokens remains in full swing and is constantly being updated as new tokens are reported. Thanks to the many past contributors, I am pleased to announce that many previously unlisted tokens have been recorded during the year which certainly helps to make the catalog look better than before! Further reports are always welcome!"

I neglected to mention that George Hosek, 7411 Idleale Lane, Omaha, NE 68112 has published a rarity list of merchant tokens from Nebraska showing the town count of 23 collectors. The list is available for two tokens from NE he can use or \$2.50. Collectors should find the list most useful.

The summer issue of The Bank Examiner, quarterly publication of The Bank Token Society, features classified ads, a maverick section, some nice articles, etc. Membership is \$3.00/calendar year. Write John D. Mullen, BTS Editor, at Box 4, Newton, MA 02158.

Are you on Dick Grinold's mailing list for exonomia? Write: 627 Polk St. N.E., Minneapolis, MN 55413. \$2.00 will get you the next four lists.

Sept. 30 is the deadline for the 3rd Token and Medal Mail Bid Sale conducted by Stephen F. Alpert, PO Box 66331, Los Angeles, CA 90066. Over 2,150 items are featured in the sale. \$5.00 gets you the next four sales and prices realized.

Jerry Zara reports that early 1981 TAMS will be publishing his Frison Token Catalog. For 50¢ and a SASE you can get Jerry's 1980 personal token. Write Jerry at Box 248, Brick, NJ 08723.

John and Glenda Cheramy, PO Box 5214, Station B, Victoria, BC Canada V8R 6N4 put out periodic lists on Canadian tokens and medals.

Charles Kirtley, PO Box 38, Brasstown NC 28902 puts out periodical exonomia lists focusing on CWT, HT, Storecards, and selections of good fors, political tokens and others. \$3.00 gets you the next six issues.

REV. Good for / (star) / picking / - 5 - / chickens

METCA member E. T. Schuttler of Sioux Falls, S. Dakota sent along the above rubbing of an unusual token he owns. He mentions other collectors thinking the piece quite unique although he has not researched it himself. I checked Lew Ferguson's 1972 "THE TRADE TOKENS OF IOWA" and did not find the piece listed. Lew issued supplements in 1973 and 1974 and they lacked this token as well.

Lew's book has stood the test of time quite well and stands alone as one of the finest "state" trade token works. So it seems E.T. has a very desirable "good for" and quite possibly a scarce or rare token unless a hoard turns up! My thanks to E.T. Schuttler for sending a rubbing of his "CHICKEN PICKER" token, it's a nice unusual good for and one he can be proud to own.

Word from Mike O'Brien about Chuck Littlefield's "CAT MILK" token _

" I seem to recall that "cat milk" was a term for whiskey - but I can't guarantee that statement. When I saw the token (description) and read "cat milk" whiskey came to mind". Thanks for the letter, Mike!

Word from Micheal Miller of Lancaster, PA. about Quincy, Il. tokens _

" Rubbings (not clear enough for reproduction) of interesting Quincy, Il. stove token I thought you'd like to see". Mike's token is common but is a nice example of the wonderfully quaint way product advertising was used around the turn of the century. Witness the following!
Buy the German Heater; soft coal flueless base heater. Warms the floor, no smoke gas or soot, saves half of your coal bill.

I don't know if all that is true, but it illustrates that old (this circa 1904, I believe) and interesting advertising and/or pictorial tokens can be interesting and yet inexpensive. Let's hear from more of you readers, too! One page on a few unusual tokens from your town would be invited. I'd gladly feature them as I did Bill Massey's a while back. Ever see an elephant holding an umbrella while riding a bicycle? I didn't until I saw this pinback from Quincy advertising bicycle tires! Pinbacks are overlooked by many of us, but they provide something a token cannot - color! I hope to feature some pinbacks with unusual advertising in a future column - can anyone help out?

Tenino's Wooden Money

Wooden money is a medium of exchange in Tenino, Washington, as a result of a plan to thaw frozen assets in the Citizens Bank, which became insolvent December 5th, 1931. The Chamber of Commerce accepted assignments up to 25% of the depositor's claim against the bank and issued in return scrip to cover the amount. The business people agreed to accept this emergency currency. It did service as money and helped many who's funds were tied-up in the bank.

These certificates were printed in denominations of \$10, \$5, \$1, 50c. and 25c., the lower denominations being on slicewood as a guard against counterfeiting and as an aid to a new Northwest wood product. This material is made two-ply with a piece of paper between the slices to give strength and pliability. The original wood was Sitka spruce, but the 1933 issues are on red cedar and differ in design and size from the earlier forms.

Three series of scrip have been issued: The first redeemable during the process of liquidation of the bank, the second until January 1, 1933, and the third during December, 1933. County and school warrants are also acceptable for this last series. The total value of scrip issued to-date is \$11,000.

Tenino is located in the center of southern Thurston County, Washington, within easy access of Puget Sound, the Pacific Ocean, the Columbia river, and Mt. Rainier National Park. The state capitol at Olympia is 15 miles north. The Pacific Highway and three transcontinental railroads pass thru the city.

The area in which Tenino is located has still thousands of acres of timber, valuable coal lands, and agricultural resources. From the extensive sandstone deposits material has been quarried for many of the fine buildings of the Northwest. The 1930 census indicates that this county has had a remarkable growth, much of the progress being due to agriculture. The mild climate is especially favorable for berries, dairying, poultry raising, honey production, and general farming. Industrially logging and lumbering are most important, with mining, quarrying, Christmas trees, fruit and vegetable packing sources of income.

The Tenino Chamber of Commerce offers its plan to combat the Depression. It is satisfied that with confidence it can even disprove the old warning: "Don't take any wooden money."

Pacific Northwest Token and Medal Show Held in Seattle, October 25 & 26: In spite of a lower attendance than last year many of the members attending the show were pleased with the added additions to their collection. Bob Farrell, for example, added over fifty tokens to his Seattle collection via purchases and trades at the show. A number of rare tokens and scarce towns changed hands at the show. Thanks to those who faithfully attend each year, either setting up in the bourse, or finding the time to attend the two-day show. I especially enjoy meeting the new faces each year - among them this year - John Gold, Blackfoot, Idaho; Kendall Ballard, Rexburg, Idaho; Ed Linden, Siletz, Oregon; William Williges; Wheatland, California; Jim Rasmussen, Sacramento, California; and others. Thanks to the Alaska following who travel a great distance to attend the show. Thanks to the local club members who always contribute. I blame myself for the smaller attendance this year; I got a late start and it showed - announcements were late; schedules conflicted; and the show was quiet on Sunday. Next year we will rectify the problems. Thanks go to my wife and daughter who help more and more each year. Special thanks to Al Nystrom, my co-host, for all his efforts, and to Irene Alexander for handled reception duties this year. Irene usually shares reception duties with Nina Nystrom, however, Nina was struck down with the flu this year and was not able to attend the show. All in all, in spite of the problems, the majority who attended expressed their desire to attend next year.

Word has it that the combined forces of Glyn Farber, Ed Tylanda and Louis Crawford have worked out a rough draft of a Louisiana catalogue: The cataloguers note that there are still a number of tokens that they are aware of, but of which full descriptions have yet to be obtained. They are hoping that through the cooperation of the membership the catalog can be as near complete as possible. They would appreciate any listings; even a listing of common tokens will help. This will help to make the rarity scale more accurate. Cataloguer addresses: Louis Crawford, 157 Plummer Circle, Jackson MS 39212; Ed Tylanda, 1512 Salisbury Dr. Baton Rouge, LA 70816; and Glyn Farber, 1618 15th St., Lake Charles, LA 70601.

Regarding the new B.C. Trade Token Catalog - it will retail for \$17.50 plus \$1.00 postage (\$18.50 Canadian or \$16.00 US Funds).

Member Bob Coney reports the death of his good friend and fellow METCA member, Ralph Henderson. Ralph was born January 8, 1912 in Shelby, Iowa and entered into Eternal Rest September 6, 1980 in Harlan, Iowa. Ralph was well known in the token fraternity and will be dearly missed. Our hearts go out to the Henderson family in their loss.

More than likely I will finish the year out with a double issue. Those of you wishing to submit full page ads should remit as soon as this issue is in your possession. I have a number of good articles in stockpile; hopefully, I will be able to use some of them soon

WASHINGTON, IDAHO, MONTANA, UTAH AND KANSAS ANILLO PATTERNS
by Kenneth E. Smith

The Anillo patterns came about as follows: Anillo Industries, Inc. of Orange, CA bought at auction in 1967 3,492 token dies of the Los Angeles Stamp & Stationery Co. (formerly L.A. Rubber Stamp Co. (LARS)) which had gone out of business. Anillo decided to branch out into the token and medal striking business. Using all the dies they obtained, they struck 25 sets which when the errors were destroyed resulted in 22 complete sets and three partial sets, of uniface circular aluminum manufacturer's sample tokens. The reverses are blank and flat so they could be mounted in their sales' display books. The problem they soon found out was that Anillo needed orders of at least 5,000 per token type to break even and show a profit. Most customers only wanted to order a few hundred of a type so Anillo gave up this business. For a few special customers such as Coin Op gas stations they still make tokens in quantities of 5,000 to 50,000 per order. They sold or gave 18 sets of these aluminum patterns, one each to various parties, and put aside the rest in their warehouse.

I am coeditor of the catalogue of Amusement tokens of United States and Canada and when we were compiling this catalog as LARS had made many of the amusement tokens used in Calif. I approached Anillo about going through the boxes stored away and getting out a couple of complete sets of amusement token patterns for catalog listings. It was too much trouble for them but as I was cataloguing them they would sell me the whole lot at a good price, which was not cheap, and I bought all the tokens. I cleaned out the warehouse and got 4 complete sets and 3 partial sets. I then listed in our catalogue 303 different amusement Anillo patterns.

Most of the Anillo patterns were from CA, AZ, NM, NV, TX, OK and Hawaii and will be covered in other articles. From the Northwest and Midwest there are the following Anillo patterns of interest to NETCA members.

WASHINGTON 5% TRADE COINS GIVEN WITH PURCHASES AT WHEELER & NOBLES MOUNT VERNON-ANACORTES L.A. Rub. Stp. Co. in (1)38mm (2)31mm (3)25mm (4)21mm (5)19mm (note: the 31mm pattern is interesting in that COINS is spelled COINES)

IDAHO POTLATCH MERCANTILE CO. POTLATCH, IDAHO (Star) L A Rub Stp Co in (1)38mm (2)32mm (3)24mm. POTLATCH MERCANTILE CO. POTLATCH, IDAHO (Star) in two varieties both 20mm in diameter

MONTANA FASCINATION BUTTE, MONTANA (in 28mm); GOOD FOR ONE FREE CARD (in 28mm). These two anillo patterns are the obverse and reverse of an amusement token from Butte which is listed as FASCINATION BUTTE, MONTANA
K 28 Sd Good For One Free Card

Among the Anillo patterns I found two varieties of a token reading THE BUTTE AMUSEMENTS, 10¢ (in 21mm)

We also have listed among location unidentified a brass token reading THE BUTTE AMUSEMENTS, 10¢ on both sides with a shamrock cutout of the center. This token might be from Butte, Montana but so far we have not found a listing of a Butte Amusement Co. in Butte directories.

UTAH BLANDING TRADING POST (Star) BLANDING, UTAH in (1)38mm (2)25mm (3)22mm. I also found one reading Elba Land Co. which somebody said was from Utah.

KANSAS ELKS RUSSELL KANSAS (10 stars) (in 33mm)

As far as I can determine there were no anillo patterns from Oregon, Colo., Wyoming, Nebraska, and the Dakotas. If anybody has further information on the Butte Amusements or Elba Land Co. they can contact me at: Kenneth Smith, 328 Avenue F, Redondo Beach, CA 90277

A Unique Sale of Rare TOKEN DIES

This is the first of two or three mail bid auctions featuring a number of extraordinary token dies executed by Joseph Mayer & Bros. (later, Joseph Mayer, Inc.) of Seattle, Washington. Mayer did not operate a token "factory." He started out in Seattle about 1890 as a watchmaker, then became a pawnbroker, but by 1894-95 is listed as a wholesale jeweler. The first Polk's listing for Joseph Mayer & Bros., wholesale and retail jewelry, is in 1897. By 1906 the company had a 124 page catalogue, mainly devoted to jewelry, spoons, and medals, but featuring one page of trade checks. Tokens were clearly a sideline. Most of the Mayer tokens reflect far more individual care than given by the average mail order trade check manufacturer.

The dies featured here were recently found under the floor of the old Joseph Mayer shop. Some were discards, with rim nicks making them unsuitable for use but not detracting from their interest to collectors or general appearance. Many, especially the reverses, date from before 1910, others from around 1915-16, and some from the early '30s. Each is of course unique. More importantly, it is quite possible there will never be another offering of Washington State token dies comparable to this one. Lewis Egnew, writing in the May 1975 TTT about Puget Sound Stamp Works of Seattle states that PSSW provided "most of the Washington State tokens encountered today," and states the opinion that the same firm made perhaps as many as 80% of Alaska tokens. Puget Sound's dies were sold for scrap, and that was undoubtedly the fate of the other smaller businesses as well. This may well be the only opportunity for the local collector to obtain a sample of the dies used to make tokens he or she is collecting.

Special rules of this sale are set forth at the end. Please observe the minimum bids where given. For the reasons stated, some of these dies deserve a high price, and will get it. You cannot go down the street and get another one for the display you are planning. Others will be within the price range of any collector, and although they may not be as choice, they will make the token which they struck so much more interesting.

Transportation

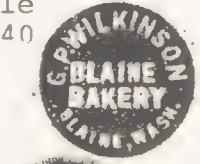

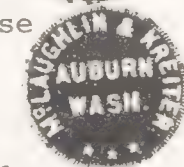

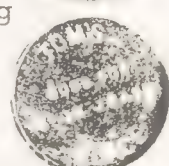

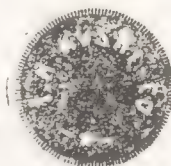

1. (Willapa, WA) Willapa Harbor Bus Line. 24 mm, star design. As far as I can tell this is the die for an unlisted and unknown transportation token from a town from which no tokens are known. The 1915-16 Lewis & Pacific Cty. Wash. Polk's lists B.A. Bullard as running a "stage line" in Willapa, Washington (pop. 200). This token was struck for Mr. Bullard's stage line on October 1, 1915, and was "good for one 10¢ fare." The die itself took three hours to make, at 38¢ per hour. We know all of this because of the Mayer stock card, approx. 6 1/4 x 10 inches, which will be sold with the die. A great set--it would be better only if someone could find the token. Note: the stock card lists Bullard's address as Raymond, Wn., 3 miles from Willapa. MB \$60 for the set.

Alaska

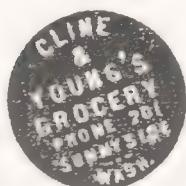

2. (Cordova and Latouche, AK) Native Copper. 27 mm. This was John W. Little's die, used to strike one side of his saloon tokens for these two towns, Cordova 20 and Latouche 2 (Benice numbers). Dates from 1909-11. MB \$30.
3. (Ketchikan, AK) T.N. Kushi Co. 24 mm. This would appear to be the 25¢ size of Ketchikan 22. It probably is from ca. 1930 rather than the earlier period of Mayer Bros. work.
4. (Petersburg, AK) Good for 50¢ in trade, P.C. & N.P.Co. [Pacific Coast and Norway Packing Company]. Petersburg 6C and 6D reverse, I expect, though Benice does not picture the reverses. Must date from 1911 or before, and an attractive die. 28.5 mm. MB \$50.
5. Petersburg, AK - Pacific Coast and Norway Packing Co. The obverse of the 25¢ size of the above token, 24.5 mm, but NO DATE. Assuming the dates are on the obverse as on the \$1.00 token pictured by Benice, this is a die for an UNKNOWN VARIETY of Petersburg 6. MB \$50.
6. (Wrangell, AK) Tom's Place, Good for 5¢ in trade. 22 mm, Wrangell 10A. The die for an R7 token, struck ca. 1930. Mayer was bought out in 1938. (The next sale will feature the die for an unlisted 10¢ piece.) MB \$40

Washington

7. Auburn, WA - McLaughlin & Kreiter. 24 mm.
8. Blaine, WA - Blaine Bakery, G.P. Wilkinson. Polk's lists Mr. Wilkinson's bakery in 1911. 25 mm.
9. Conway, WA - O. Wollan Pool Hall. The last Washington census shows no collector with a full town/state inscription. The 1917-18 and 1921-22 Polk's shows Wollan running the Conway Hotel. This die may be earlier, or may represent a side business. MB \$25.

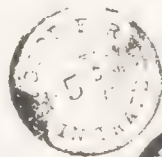

10. Elma, WA - Eaton's Cigar Store. 24 mm. The object in the center of the die is a cigar--the band does not show on the impression. Polk's lists in 1928.
11. (Hobart, WA) Wood & Iverson Store Incorporated. 30 mm. A beautiful die from a tiny King County town. Polk's lists the store, in Hobart, in 1914.
12. Hoodsport, WA - Ahl's Pool Hall. 24 mm. Oscar Ahl had a billiard parlor in Hoodsport (pop. 63) in 1921, and he's also listed in the pool business in 1929 when the population had soared to 100.
13. Kirkland, WA - Walker & Carr. 21 mm. This appears to be some of the later die work of Mayer. The Mayer firm appears to have been most active in the trade check business 1917 and before, and again in the early '30s. Not a common town.
14. McKenna (WA) - McKenna Club. 24 mm. Forrest Dunham tells me he has the token, but thinks it may be unique. Has anyone else seen one? A Pierce County town, not far from Yelm.
15. Port Townsend (WA) - Delmonico Hotel, Good for 5¢ in Trade. 21 mm. The die that struck one of the most frequently seen Port Townsend tokens. A couple of rim nicks, but still an excellent display item.
16. Raymond, WA - Olympic Club Billards, Cigars and Tobacco. 24 mm. Listed in Polk's in 1910.
17. Snohomish (WA) - C.B. Dahl. I haven't dated this piece, but with its toothed border it is clearly one of the oldest dies on this list. I hope someone can check it out. 25 mm.
18. Stanwood (WA) - Clyde's Tavern. 25 mm.
19. Tacoma, WA - Langert Liquor Co., The House of Good Values, 1115 Pacific Ave. 25 mm. Similar border to the Snohomish piece. This was a saloon, listed in Polk's in 1909.
20. Wilkeson, WA - Angelini & Bacolich. 21 mm. The closest thing I could find in trying to date this was Rapoli & Bacolich, restaurant, billiard, etc., in 1915. Another Pierce County town. A saloon?
21. Sunnyside, WA - Cline & Young's Grocery, Phone 201. This is the only die I can think of from east of the mountains. I'm not sure how the Mayer Bros. got their token business, since I have never seen an ad or a Polk's listing under "trade checks," but it seems to have been confined pretty much to Western Washington and Alaska. 28 mm.

Others

22. Medford (OR)--Medford Elks Club, B.P.O.E. No. 1168. 24 mm. One of only two Oregon pieces in the whole lot of dies.
23. Victoria, B.C. - St. Francis Hotel. 21 mm. This and two odd Vancouver pieces were the only Canadian dies in the Mayer find.
24. Cafe Anheuser, 25¢. 25 mm. An old die, almost certainly pre-1910, and almost certainly a saloon. Anyone know where its from?
25. Standard Theatre Co., 10¢. 21 mm. The 50¢ denomination appears in the Mayer Bros. 1906 catalogue, but where is it from? The odds are about 1 in 10 with any of these mavericks that they are unknown Alaska, but western Washington is by far the best guess.
26. Good for 12 1/2¢ in trade. 24 mm. Reverses usually are considered second class stuff. Not the ones in this sale, many of which are pre-1910 and appear on Alaska tokens, many probably unknown. This one is quite clearly the reverse for Juneau 61, Kodiak 1, and Skagway 18B. Ca. 1907-08.
27. Good for one drink. 24 mm. The same old-style toothed border as #17 and #19, above. The reverse of Fairbanks 21, Horseshoe Saloon.
28. Good for 5¢ in trade. This is an interesting set of two pieces, one the die for making an incuse token, and the other appearing to be the positive hob used to make the die. The incuse die appears to have been the one used to strike the Douglas, AK, Canteen Saloon token (Douglas 4A). The only incuse item in the lot.

Terms

Suggested minimum bid of \$10, unless higher indicated. All successful bidders must agree in writing before dies shipped that they will not restrike or permit restrikes of these dies without written permission (e.g. for clearly identified commemorative issues). Buyers will be registered with all appropriate organizations, and purchasers for resale will be required to supply the name/address of the buyer. There is nothing wrong with owning a die, only in misusing one. Right reserved to reject bids (but I doubt if I will have to). Note: since this ad will be reduced in TTT, the die impressions will be about 1/3 small than actual size.

CLOSES: DECEMBER 13, 1980, or the third Saturday after I receive Trade Token Topics, whichever is later. Bids must be received by that day.

ODD AND UNUSUAL TOKENS

JOSEPH SCHMIDT
BOX 471 BENSENVILLE, ILL 60106

From Gary Patterson of Toms River, New Jersey comes this interesting letter. I always try to quote these letters verbatim without editing simply because most readers know my style of writing and it's much more interesting to hear directly from another collector. On to Gary's letter!

"Everyone knows that France gave the Statue (of Liberty) to the U.S. in 1884 but the Statue of Liberty is in New Jersey, not New York.

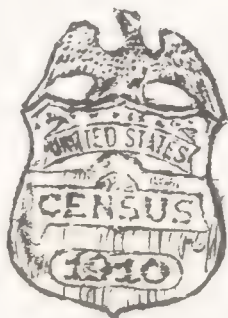

The site chosen for the statue was the center of old Fort Wood (built during the early 1800's) on Bedloe's Island, now known as Liberty Island, and Liberty Island lies within the state boundaries of New Jersey, not New York.

Unaware of this, many elongated cents, wooden nickels, tokens & medals have been issued to give New York the "Symbol of Freedom". Would these items now be considered dual state examples?"

Gary sent the above illustration of a piece issued by the Papel mint in California. This concern was surprised to learn that the Statue of Liberty is within New Jersey boundaries!

Gary's letter sent me running to my Atlas and a map of the two state area. Sure enough, both Liberty and Ellis islands are in New Jersey waters but belong to the state of New York. I would guess that Statue of Liberty exonumia would qualify as dual state items. Thanks to Gary for his letter!

As an aside, did you know that a popular tourist attraction in New York City in the year 1882 located at the then intersection of Broadway and Fifth overlooking Madison Square was the RIGHT ARM of the STATUE OF LIBERTY? Lillian Russell was at Tony Pastor's 14th street Theatre as well. If the reader would like to engross himself in a marvelous story and learn a lot about New York City of the early 80's I recommend Jack Finney's "TIME AND AGAIN", a 1974 Warner paperback.

To the left is a rubbing of a 1910 census badge probably worn by the census taker to identify himself. A beautiful piece of exonumia, this is 31 x 44 mm's, a pinback and of a nickel type of composition. I'm sure that a collection of these badges from different years would be quite an attention gatherer. I hope someone would let me know more about these items, such as cost, amount made, etc. I'd be glad to do a follow-up and would be further delighted to know some population and census figures FOR the year 1910!

WELCOME!!

WELCOME!

Dear Bank Collector;

John and I have decided to get a bank medal and token collecting group together. We feel that there are enough collectors of such items to warrant a BANK TOKEN SOCIETY, and we hope that it will be fun. We feel that the society should offer during the first year;

- (1) the holding of one national meeting
- (2) election of officers and various committees
- (3) establish a newsletter and intend to publish quarterly
- (4) establish a research and lending library
- (5) establish moderate dues, within the limits of the offerings of the club.
- (6) start a national listing of banks of the United States that issued medals & tokens
- (7) get a substantial working membership (circa 30-50 members in the first year)

COLLECTING INTERESTS THAT THE BANK TOKEN SOCIETY WOULD PROMOTE:

- (1) Bank tokens and medals; researching and cataloging
- (2) Bank encased coins
- (3) All financial related institutions, trust company, savings, etc., that issued any kind of collectibles
- (4) Basic research of #1, #2, #3
- (5) Miscellaneous items; such as fobs, badges, mirrors, advertising items, and such if sufficient members are interested.

ANYONE INTERESTED IN JOINING THE BANK TOKEN SOCIETY PLEASE SEND \$3.00 CHECK TO
EITHER OF THE ABOVE PEOPLE AND BECOME A MEMBER NOW !!!!

SEASONS

GREETINGS

METCA MEMBERS - GREETINGS OF THE SEASON WITH EVERY GOOD WISH FOR YOUR HAPPINESS IN THE NEW YEAR - Bary, Jan and Diane Bender. Thank you all for your cooperation this past year. A special thanks to the co-editors, Lee Nott, Joseph Schmidt, Al Zaika and Bill Clapper for their columns. And thanks to those who take out paid ads and contribute with fine articles.

Pardon the delay in getting out this double issue. With the increased costs of getting this out, I anticipate a few more double issues next year. You will get over fifty pages in the double issue; it will make for a lot of work, but it will make for some savings in printing, mailing and envelope costs.

Robert Glasgow reports having several calls concerning the York, PA Haverick Listing in the October TTT. He hopes others will list their home-town mavericks. If the membership cooperates in this respect it will certainly enhance the general awareness of other state tokens and enlarge the scope of maverick attribution. It would be nice to hear from several states.

The Dec. 1980 Alaskan Token Collector and Polar Numismatist featured an interesting article by Jo Anne Wold on "The Millers of Miller House". I personally enjoy the story behind the token - the local history of the town and the human interest side of the token issuer. 1981 subscription rate to ATC & PN is \$4.00. Send to N.S.A., Inc., P.O. Box 2832, Fairbanks, AK 99707.

Received word that the National Collectibles Exposition will be held March 28 and 29, 1981, in Chicago, IL at O'Hare/Kennedy Ramada Inn, Rosemont, Ill.

Bonnie & John's Trade Tokens, PO Bx 1558, Post Falls, ID 83854 is compiling a master list of Spokane, WA (including Hillyard, WA) tokens. Your cooperation will be greatly appreciated.

Since I am late in getting this issue out (I presume many of the lists will no longer be in effect, however, I will list them so the membership can write for details on future issues): Charles Kirtley, P.O. Box 38, Brasstown, NC 28902; Stephen P. Alpert, P.O. Box 66331, Los Angeles, CA 90066; Williges, P.O. Box 445, Wheatland, CA 95692.

Williges will send his latest fixed-price list free to any METCA member who remits a 15¢ stamp. The next two lists will also be sent at no charge.

The University Coin Club of Seattle, WA presents its 15th Annual Coin and Stamp Exposition at the Norway Center, 300 3rd West, Seattle, March 7 & 8, '81.

See the classified ad section regarding a listing of Tacoma merchant tokens.

Hats off to those of you who display tokens at coin shows, local business, etc. in hopes of generating more interest in token collecting. I appreciate those who take the time and effort in displaying their exonomia wares. Out in WA I note Les Albright from Seattle with a variegated assortment of fine displays; Al and Nina Nystrom from Seattle do a great deal to boost exonomia with their displays and many club duties; Jack Harvill displays throughout Central WA; Irene Alexander from Spokane is a big booster for exonomia and local coin activities (she even travels 300 miles to co-host the METCA PNW Show); Mike Fritz from Rathdrum, Idaho, and Bonnie and John Calhoun from Post Falls, Idaho keep eastern Washington and western Idaho alerted to exonomia happenings. And the list goes on. Now I don't know Frank Kroha, New Jersey collector, personally, however, I note with a great deal of interest the number of times I have come across his name as a displayer of exonomia at regional and local shows. Frank had a marvelous year with a great deal of success in displaying his pet exonomia exhibit, "Merchant Tokens of Lower Manhattan, New York City". After two previous first place awards Frank added a second place in Tokens and Medals at the July-Aug. Garden State Num. Assoc. Conv.; A Best in Show (Senior) at the Ocean County Coin Club Annual Show in Sept.; Second Place Senior in the Monmouth County Coin Club Annual Show in Oct.; Best of Show (Sol Kaplan Award) at the Great Eastern Num. Assoc. Conv.; and Invitational Exhibitor Award (Non-

Competitive) at the Grand Central Coin Convention. Having never displayed at a show I am going to make a New Year's resolution to make a concerted effort to boost exonomia by assembling a nice exonomia display at one of the local coin shows. Trust you will, too.

As the New Year approaches let each and everyone of us make a point to contribute in some small way to make METCA bigger and better for all of us. Though METCA is based in the Pacific Northwest I would like to see more participation from the the rest of the nation and Canada. Take advantage of your free classified ad; try a paid ad and see the results you will derive; author an article the membership will enjoy; and boost exonomia in general.

If you are serious transportation collector why not remit a \$7.50 check to AVA Treasurer, R.K. Frisbee - 211 King St. - Denver, CO 80219.

\$5.00 to Sec. Walter Caldwell, P.O. Box 29, Favettesville, West VA 25840 will get you a year membership in the National Scrip Collectors Association. If you collect coal and lumber and related industry tokens, NSCA is a must!

NSCA - The next National Convention is slated for May 1st and 2nd, 1981, at Bluefield, West Virginia.

John Cheramy Coins, P.O. Box 5214, Station "B" Victoria, B.C., Canada V8R 6N4 has a two-page fixed price list of Canadian tokens and medals.

Are you thinking of a belated Christmas present? Why not get one of the fine merchant token catalogs presently available: i.e., Edkin's Catalog of Coal Company Scrip (\$25.00 value, \$16.00 for joining NSCA); C.R. Clark's FLORIDA TRADE TOKENS for \$15.00; George Gould's MERCHANT TOKENS OF MONTANA, 1889 - 1939 for \$11.00; Lee Nott and Jim Wright's Colorado Token Catalog for \$15.50 with the 1979 Supplement at \$5.75; Ronald Benice's ALASKA TOKENS; Les Hill's British Columbia Catalog at \$17.50; and Cecil Tannahill's Yukon Catalog. For complete descriptions and all, consult back issues of Trade Token Topics.

Before I forget- a big thank you to Al and Nina Nystrom for their help every month in collating, folding, stamping, etc. They always find time in their busy schedules to make an evening of helping Jan, Diane, and me in getting Trade Token Topics out. Herman Fisher is a great help, too.

1981 Dues - \$8.50. Remit a check to 752 North 74th, Seattle, WA 98103. And enclose a free classified ad with your dues. Make your membership work for you by taking advantage of free ads, etc.

WHITE METAL? 24MM ROUND PLAIN EDGE

OBV. The Dayton Malleable Iron Co. / Ironton / --- / Ohio

REV. One / ladle / iron

Once often seen, this piece is becoming harder to find nowadays, and I've not featured this before to my knowledge. I'm not sure of the composition and never have been! It isn't iron, is somewhat dark, not soft, and not aluminum. Well, let's shed some light on this one - does anyone know for certain the composition? This is another example of an unusual good for that doesn't really say "good for" on it and was not meant to be literally good for a ladle of iron. Still, it fits in with the wood, gravel, stone, coal and other such tokens. A display of these related types would be most interesting. Incidentally, anyone can display tokens at a monthly bourse or show - most welcome exnumia enthusiastically! All that is needed is a showcase (such as the Allstate type) with clear lettering and good views of your tokens. So few of us exhibit that I wonder if we aren't hurting ourselves by not doing so! Coin dealers at your local bourse won't be offended as exnumia won't interfere with coin sales. Consider this, if you exhibit, how many people would come up and tell you they have "something like that at home"? Quite a few, I'd guess. You can pass out your card or wait for some viewer to bring tokens back next month for your offer. Who knows what you'll find? If your worried about security just get a cheap Master lock and fit a one-eighth sheet of plastic like plexiglass over the showcase glass to prevent someone taking a whack at it. Cost is nominal, about \$9 for the lock and plexiglass. We have a nice hobby, so why not share it?

NICKEL COMPOSITION 38.5MM ROUND HOLED

OBV. Awarded for skill / G (center) / property of machine / C/S 363

REV. Good for 20 free games / (a center "plaque" for engraving or countermarking)

An unusual dollar size amusement token I thought readers would like to see!

Want your Ingle mavericks identified? Tom Hitt will try! Write with full description to Tom at: Box 970, Defiance, Ohio 43512. Tom sent a rubbing of the Dayton piece above.

ALUMINUM 25MM ROUND

OBV. A. KRAMOLOWSKY / UNION, / MO.

REV. 40 GOOD FOR / 1 / GALLON /
\$2⁰⁰ / WHISKEY

Since the column featuring a " cats milk " token and others similar I've heard from a lot of METCA members with some really interesting beer or whiskey related pieces! This would account for the popularity of these items, I guess, high prices realized at sales always result when this type of token is offered. A tip of the hat to everyone who sent in rubbings of all types of tokens during the last 60 days, I should have enough tokens to entertain readers for a while. Most rubbings & comments are direct from letters so again I have little to do except let other members take over!

Above from Chuck Littlefield " Thought you'd like to see this one. Mr. Kramolowsky ran a saloon in Union, Mo. for better than 30 years. " I might ad he put out a nice token, Chuck. 40 of these tokens brought some lucky guy a gallon of \$2.00 whiskey? That's good stuff considering the low prices of 50 or so years ago!

ALUMINUM 26MM 12 SCALLOPS

OBV. REDEEMABLE BY / KELLAR / CANDY CO. / WITH / CELERY BEER

REV. GOOD FOR / 5¢ / GLASS / CELERY BEER / AT ANY / STORE /
NON - INTOXICATING

John Nicolosi wrote and included this choice piece of exonumia he rubbed! I'd hazard a guess that "celery beer", like todays' "ginger beer" was non-alcoholic as indicated and was given the name for it's value in selling the drink. Any drink utilizing the actual taste of celery wouldn't be too palatable - at least not to me! Enhancing this token is the name of a candy company utilized with the drink. Few tokens such as this were ever made, desirable to the dairy, confectionary and drink token collector. This is also a MAVERICK which I'd hate to see go unidentified, so if you know where it's from, write John at 3002 Galindo St. Oakland, Cal. 94601. This is usually Lee Notts' department, so I won't list mavericks often. Now from Johns letter:

"I'm enclosing a rubbing, it's the best I can do, and hope it will be something unusual....I have had it for years now, and still cannot locate where it's from."

John also mentions looking forward to the column and enjoying it - thanks! It surely is everyones column because of all your unusual tokens.

This will be the special column that several members have requested. The usual rules have been relaxed in order to allow other mavericks to be listed. Next month's column will reflect only those tokens that comply with the regular rules which are that the token must have two of the following types of information: (1) business name, (2) owner's name, (3) street address, (4) town name. I am considering a column to be run in March or April that would include only Ingle System tokens that do not conform to the regular rules; please send listings if you are interested in such a column. Because the following tokens do not have two types of identifying information, we especially need your help identifying these tokens. Please send identifications to Lee Nott, Maverick Editor, Box 3130, Fairview Heights, IL 62208

MERRY CHRISTMAS & HAPPY NEW YEAR 1981

I FEATURE THE TOKEN ABOVE AS A CHRISTMAS & NEW YEARS GREETING FROM MY PARTNER GEORGE OWEN AND ME. HEALTH & HAPPINESS AND MAY YOU FIND THE TOKEN THIS YEAR !

I'm no longer a full time numismatist and now share a partnership in an industrial metal stripping & coating factory. George Owen & me are still partners and spend a little less time with the coins, that's all. We'll still help anyone anyway we can-identifying Illinois tokens, writing "ODD & UNUSUAL TOKENS" for METCA - we need quite a few to keep the column going strong although Bary Bender remarked I've sent enough to last for a year and don't get upset if your token doesn't appear right away. I'll be just a little longer in answering my friends, etc. I still will tell you if your token is of value if you write & describe and I'll always help with the translation of French and German pieces. Everything as always - just need a little more time!

P.S. My new address is below, but I still pick up mail at BOX 471, BENSENVILLE, IL. 60106 twice monthly.

Joe Schmidt

MERRY
CHRISTMAS!

CATALOGING EFFORTS

Cataloging efforts will continue as usual. Here's an update!

SALOON TOKENS OF THE UNITED STATES

Over 1,750 are on index cards awaiting my transferring them to a manuscript. All who sent in listings (over 100 people) will be acknowledged as promised. If all goes well I'll do this after the next work listed below is done. Meanwhile, send in all new listings for insertion in the card file.

A DEFINITIVE PRICE GUIDE TO HARD TIMES TOKENS

This work has over 3,000 entries of Hard Times tokens culled from mail bid sales prices realized 1969 - 1980 covering 12 grades for each Hard Times token. Plus charts, graphs, percentage of entries over EF, Garrett sale PR's and more! I'm on page 21 of the FINAL manuscript and Krause will publish soon - watch for the ads.

STORECARDS OF ILLINOIS

I need to hear from all Illinois collectors who have storecards before 1901 (19th century). Anything that isn't a "good for" and that advertises a business - I'll check and verify the year(s) in business with Illinois directories from 1871 to 1958.

This is a serious study - Miller's 44 listed pieces will be increased to over 300! Rich Hartzog is helping - let's make Illinois the No. 1 storecard state! MY NEW ADDRESS -----

JOE SCHMIDT

 YOU KNOW HOTEL. 120 STEVENS 1899

As you can see by the many names of SALOONS AND BARS and diffrent addresses if all of them had tokens which most did have it would be a collectors holliday. We have found that many tokens do not have Spokane on the tokens. There is many that are MAVERICKS but still a good token to collect for Spokane. Lots of them just have the adress and name.

The Spokane, Washington fire August of 1889 wiped out, these streets. POST MAIN, RIVERSIDE, STEVENS, MILL, FRONT, 1st AVE, 2d AVE. WASHINGTON, EVERYTHING FROM 3rd AVE TO THE RIVER.

MILL ST WAS CHANGED TO WALL ST in 1906. We have found that some of the addressed have changed 2 times in one year. Listed in the Polk Directorys.

The fire took out lots of tokens, Also lots of owners did not list there place of busniss so lots of token are not listed.

We have a 1884 SPOKANE FALLS W.T. DIRECTORY, 1885 INDLAND EMPIRE DIRECTORY, WESTERN WASHINGTON DIRECTORY W.T. 1883-1884 This gives all towns as far a walla walla. SPOKANE FALLS W.T. DIRECTORY PUBLISHED BY CHARLES E. REEVES 1887. ALSO R.L. POLKS DIRECTORYS OF 1889, 1890, 1892, 1893, 1895, 1896, 1899, 1900, 1903, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1930, So if we can help you find or locate the address of a token send a s.a. e. and we will try and help you.

If any one has SPOKANE WASHINGTON tokens please send your list and price, or maby we will have something we can trade for. This is our prime Collection and would like to increase it to a very largr collection of Spokane. I hope the above busisnesses and addresses will help some of you to find out where your MAVERICKS ARE FROM. So happy collecting and let us here from you about Spokane tokens.

From 1916 to 1939 there were five token makers in Spokane and made many diffrent tokens all over the northwest. Prohibition stoped the SALOONS AND BARS. Most of them went into Billiards and Pocket Billiards, Cigars and Tobacco Stores, Confectionarys Hotels that had bars also set up Cigar and Tobacco shops, Confectionarys. Some of the same people listed above opened up again under the above shops. This is why so many tokens from 1916 were made in Spokane that had the same addresses but a new name. Some of the diffrent owners teamed up and started a new buisness togather and had more than one shop but diffrent parts of Spokane. Even today there is still some places that is still issuenig tokens. Dig down and lets get the old ones.
